# *About the Survey*

---

- Total N=3,000 (+/-1.8%) Los Angeles Residents
  - Antelope Valley, Long Beach, San Fernando Valley, San Gabriel Valley, SELA, South LA
- SELA
  - Random Sample N=500 (+/-4.4%)
    - Residents of SELA randomly selected so that each member has an equal chance of being chosen
  - Community Sourced N= 93
    - Participants selected by accessibility and represent the network of community-connected residents of SELA
- Focus is on pandemic recovery

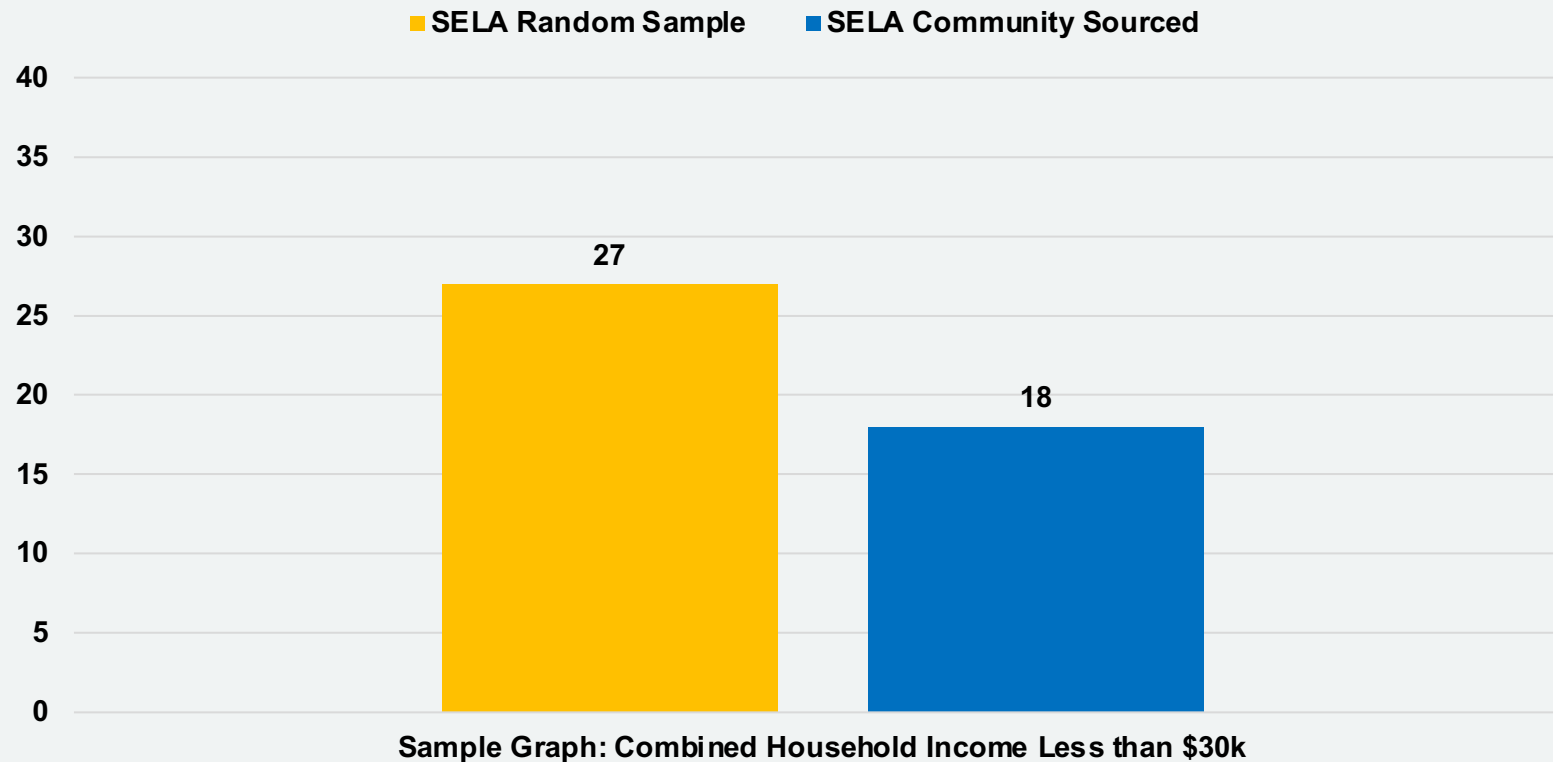

# *About the Survey*

---

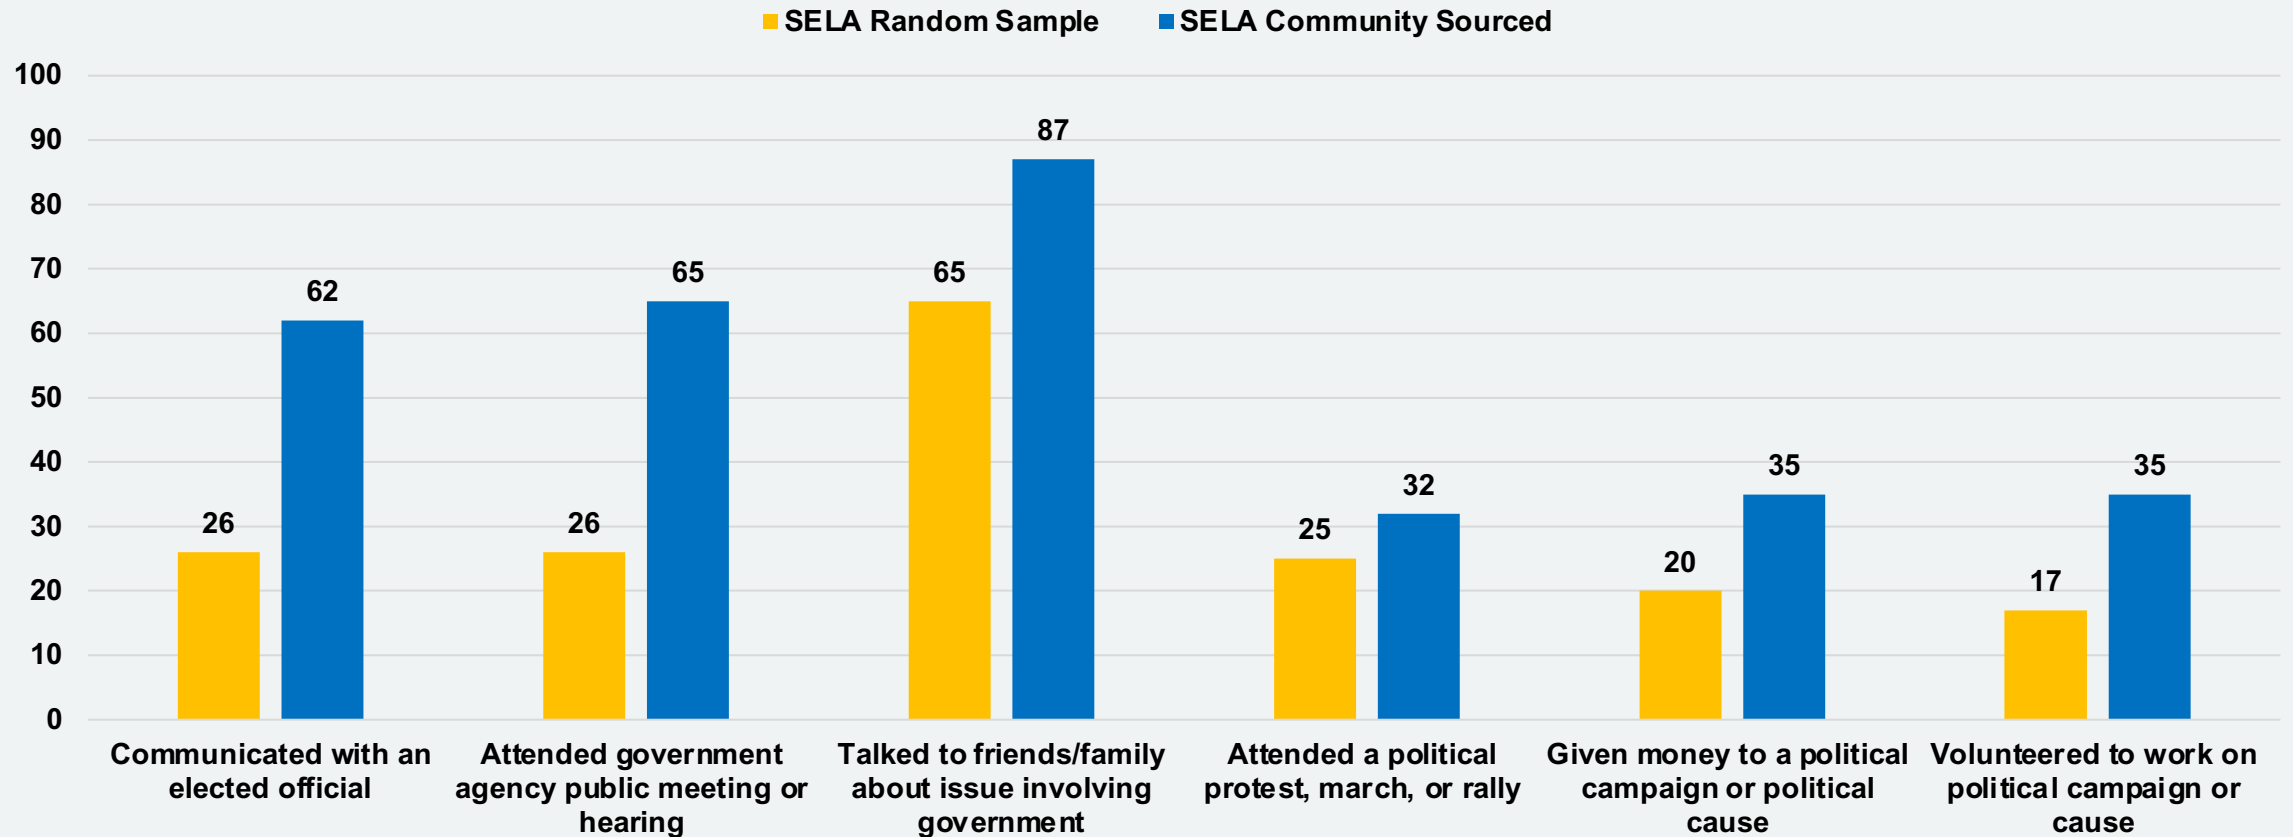

- Conducted by BSP under the direction of Matt Barreto, PhD
- Field Dates: November 16, 2022 - January 14, 2023
- English & Spanish
- Mixed Mode: 75% online, 25% telephone

# Roadmap to Understanding the Results & Comparisons

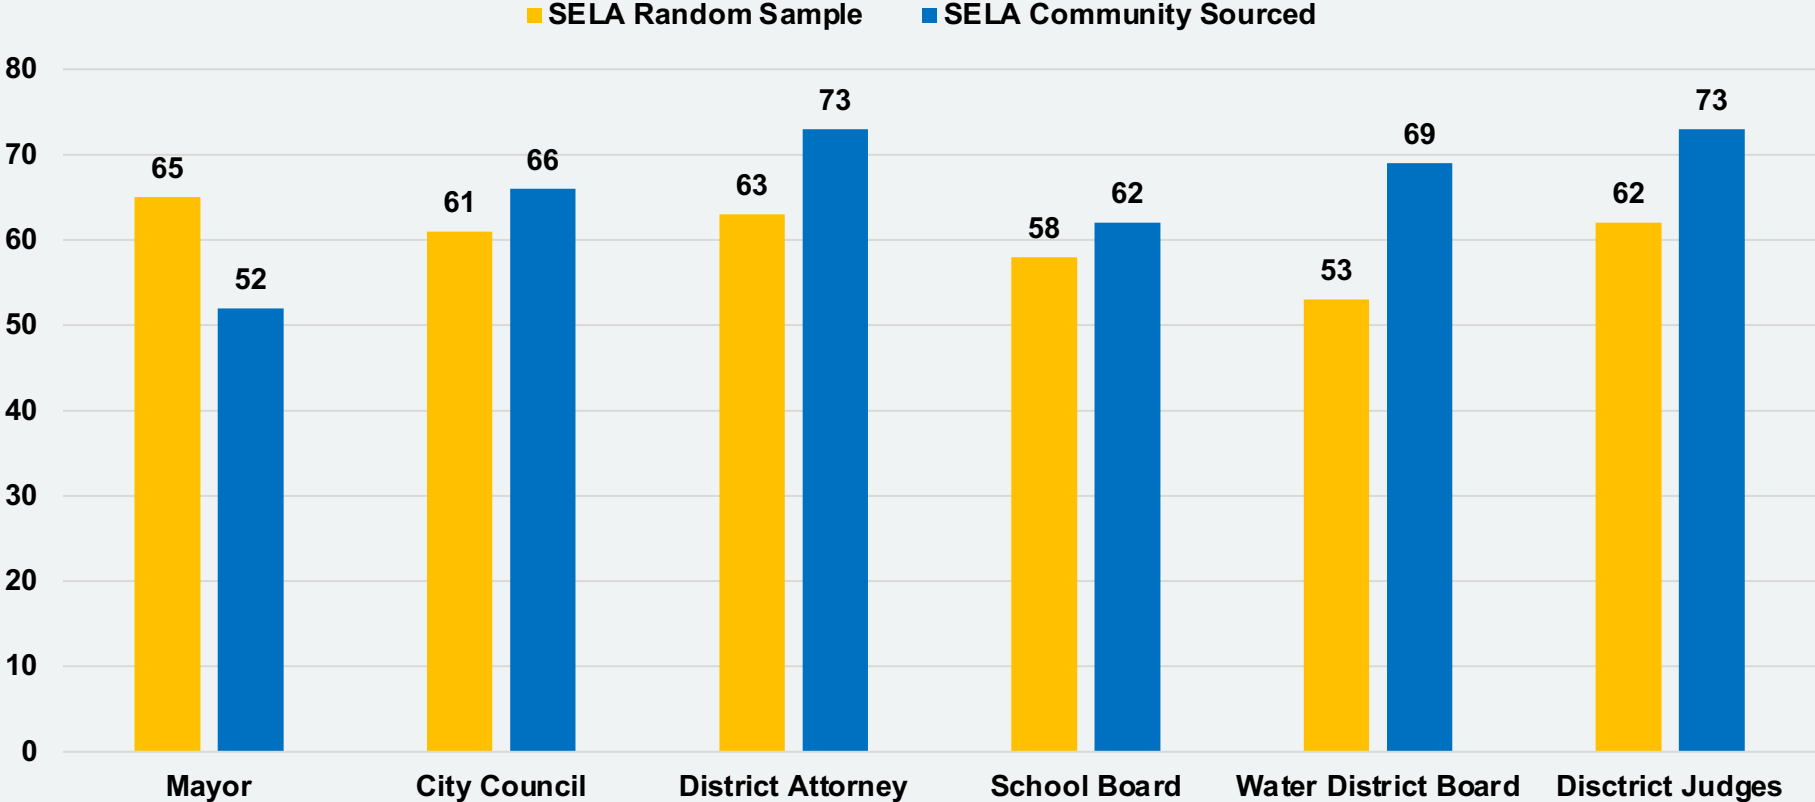

- SELA random sample
- SELA community sourced sample

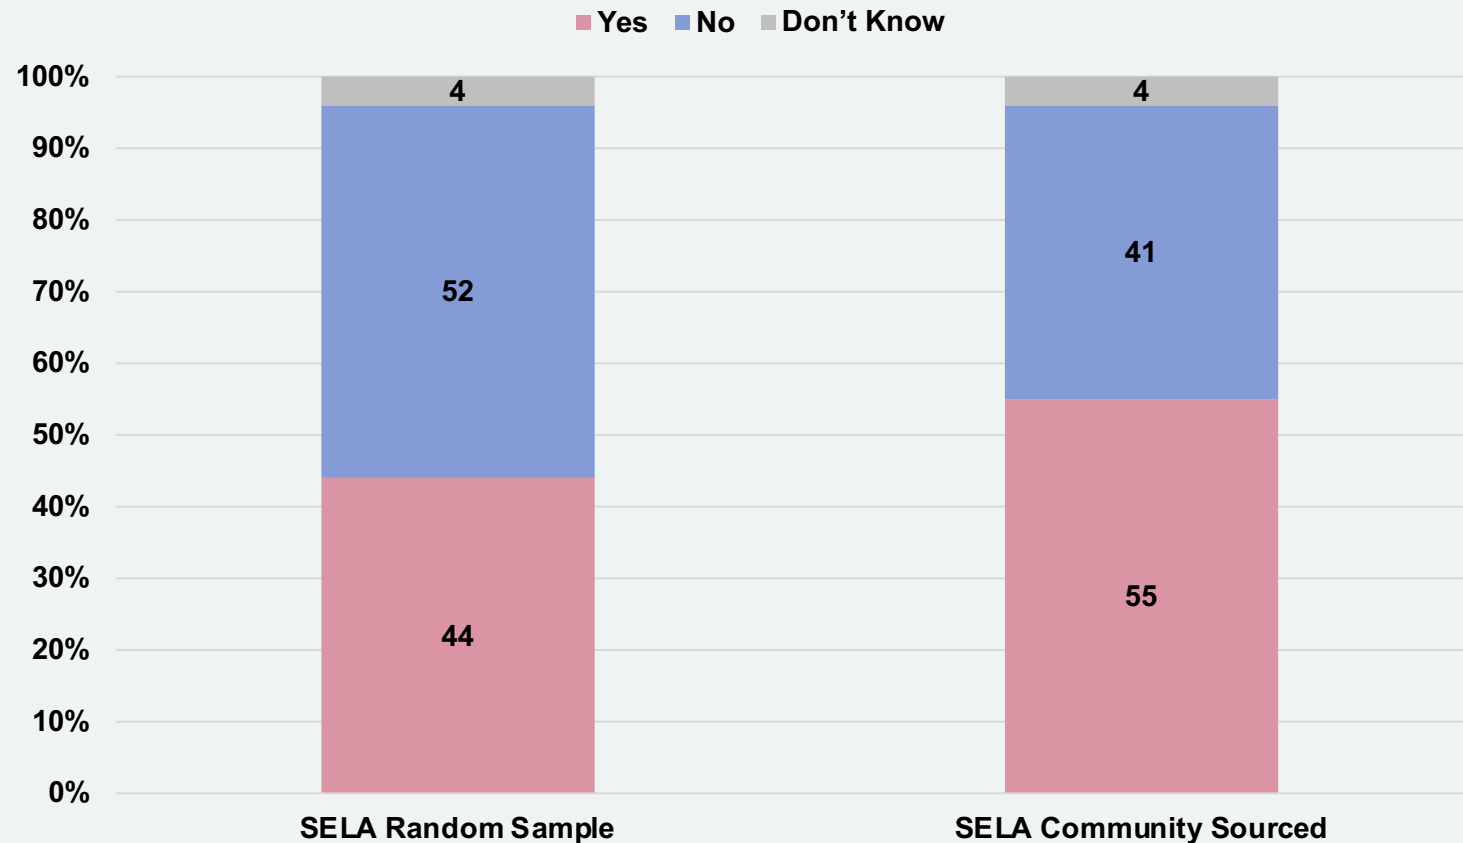

# *SELA respondents were very likely to talk with friends/family about an issue involving government during the pandemic*

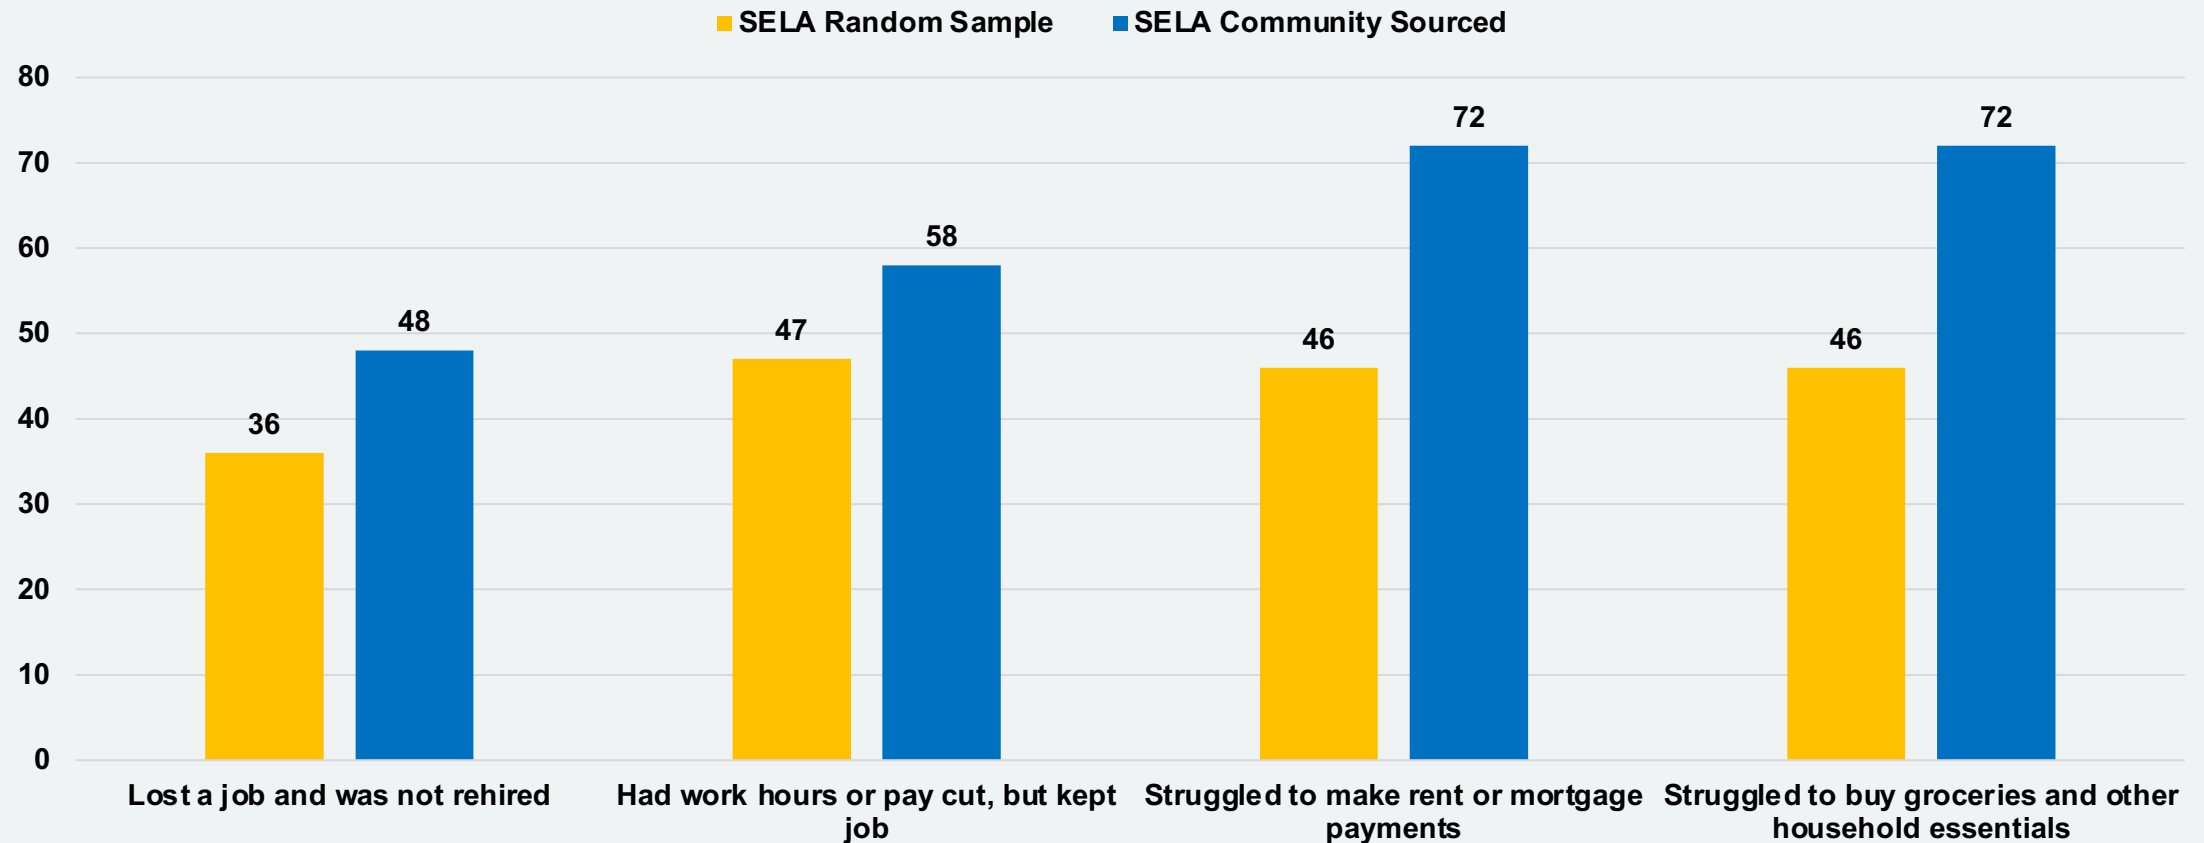

# *Majority of SELA respondents reported voting for several local public offices*

# *Voter engagement efforts reached under half of SELA respondents in the 2022 election cycle*

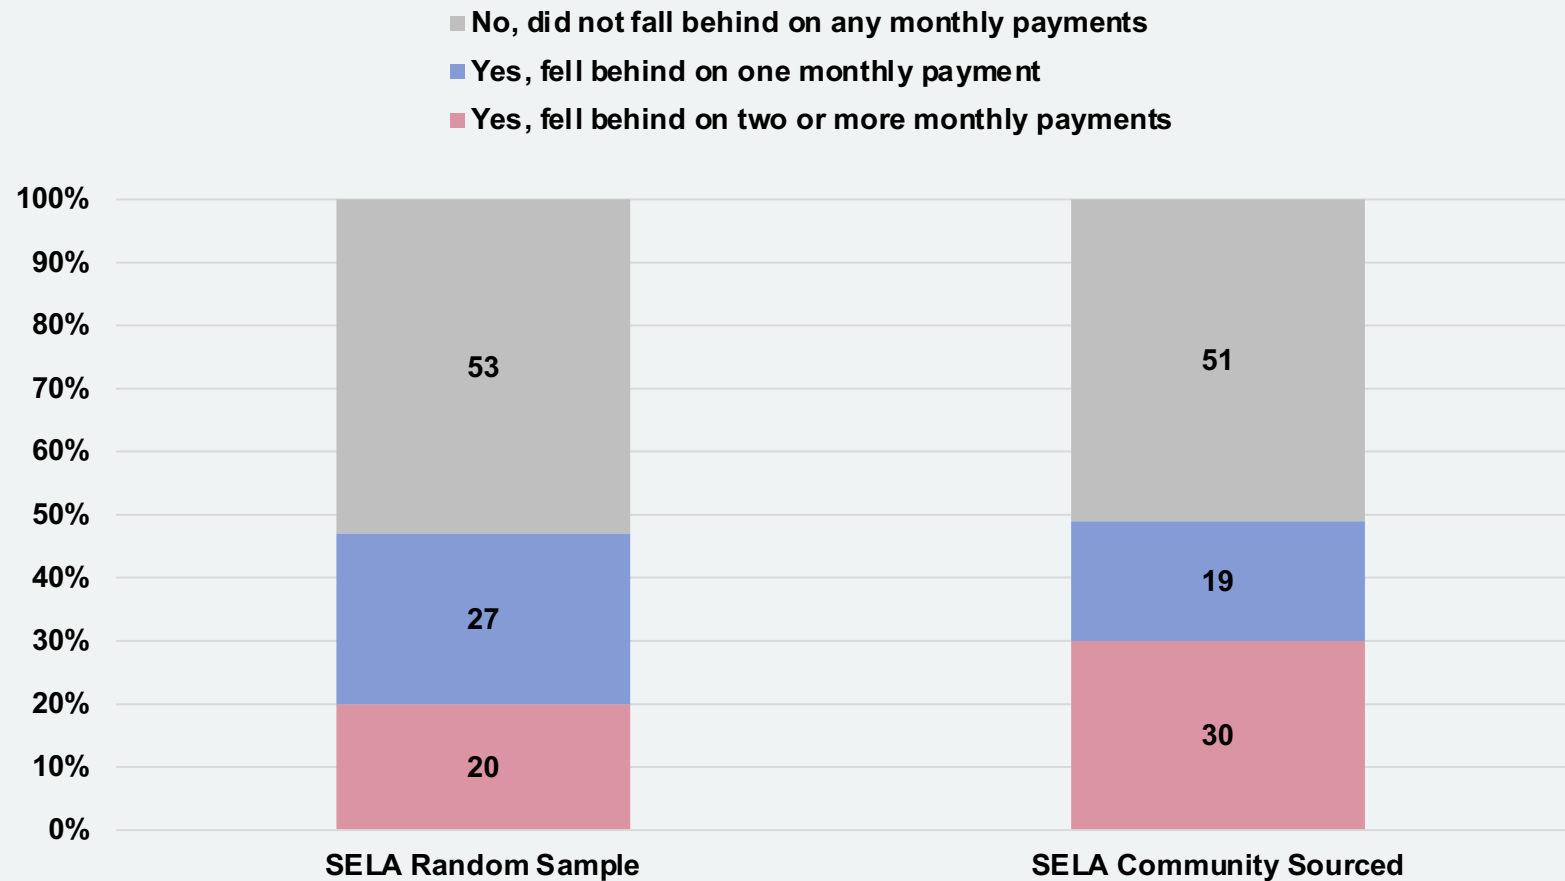

# *Close to half experienced cuts in work hours and struggled to make grocery and rent/mortgage payments during the pandemic*

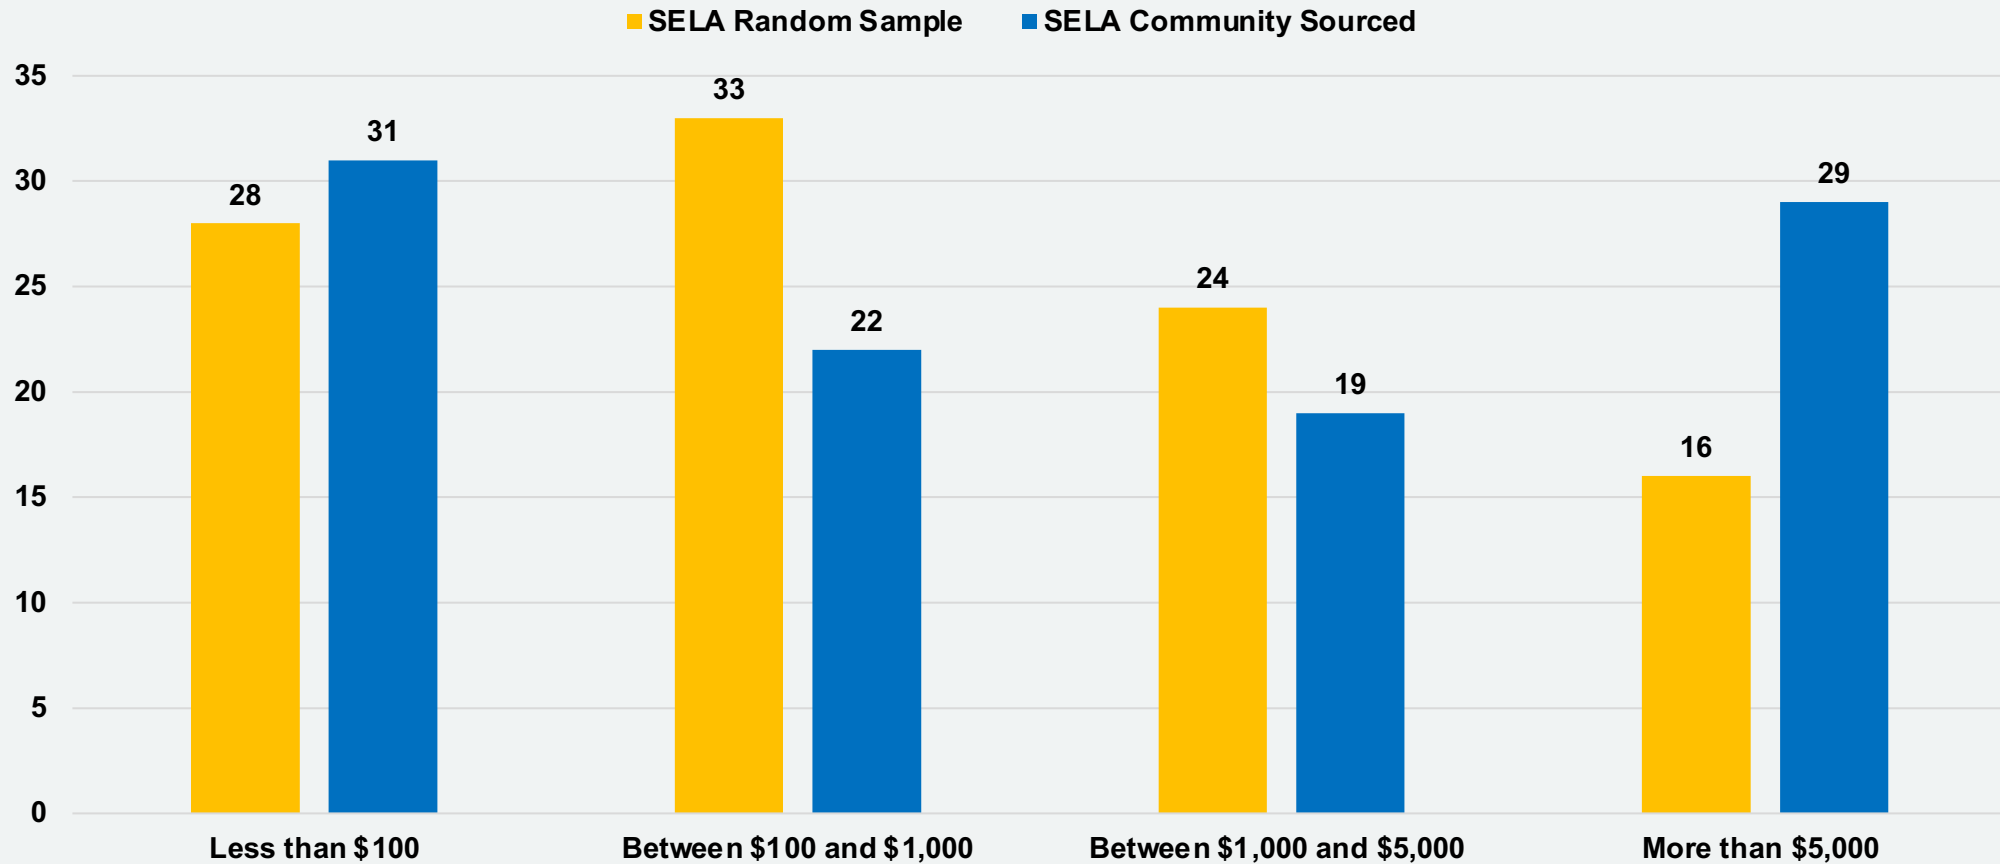

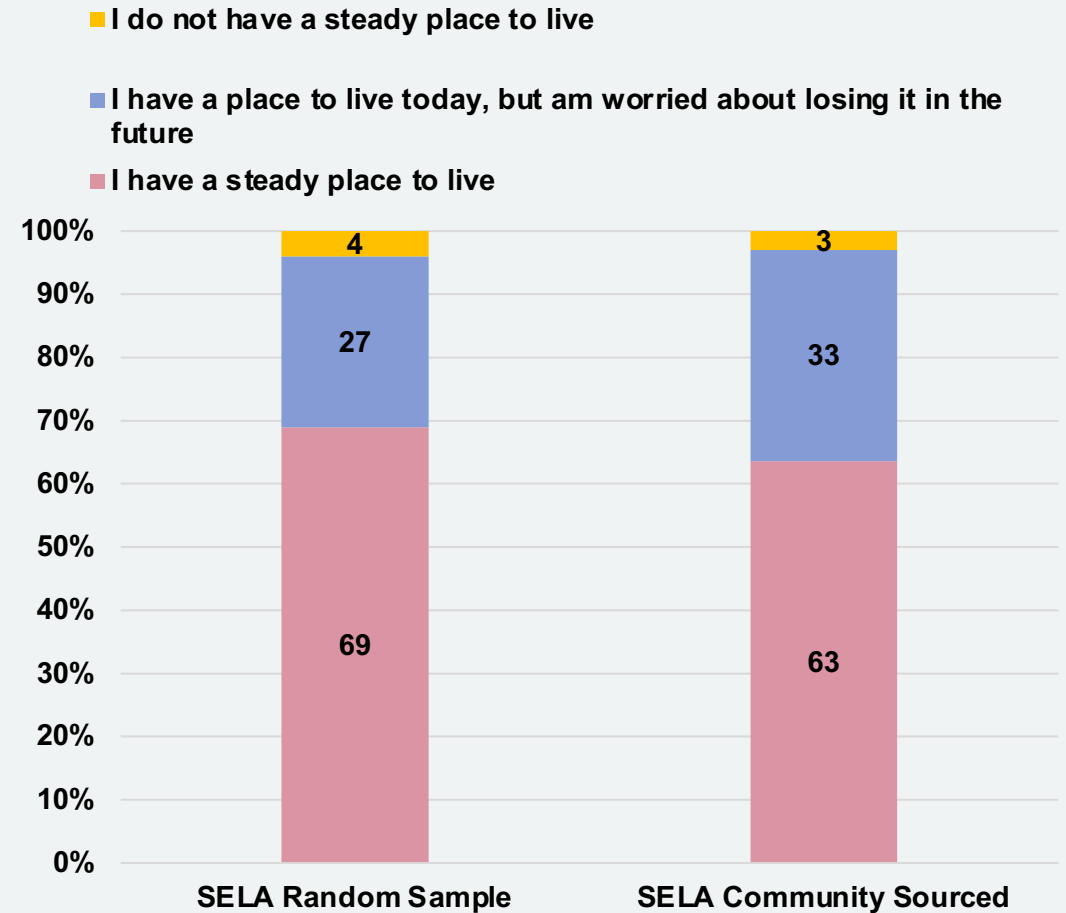

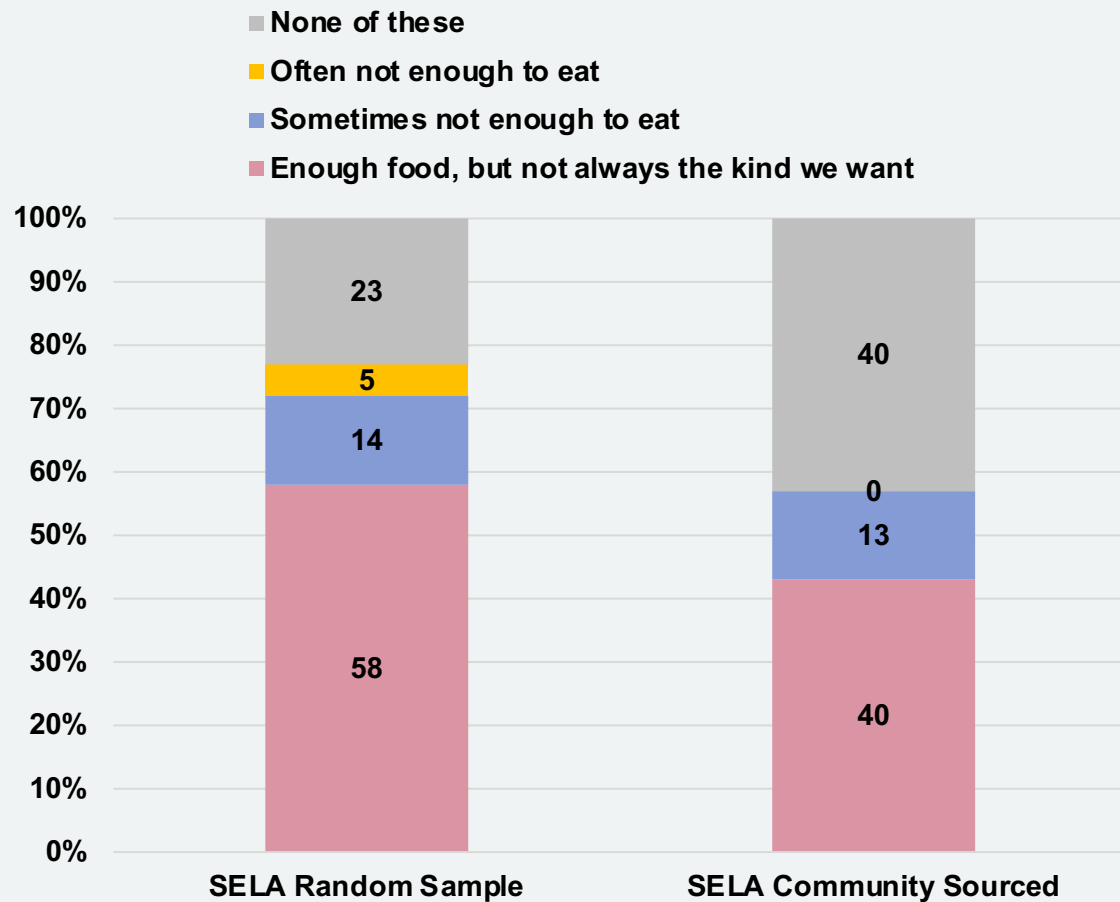

# *Close to half fell behind at least 1 monthly payment (rent, mortgage, car, utility, etc.) since the pandemic began*

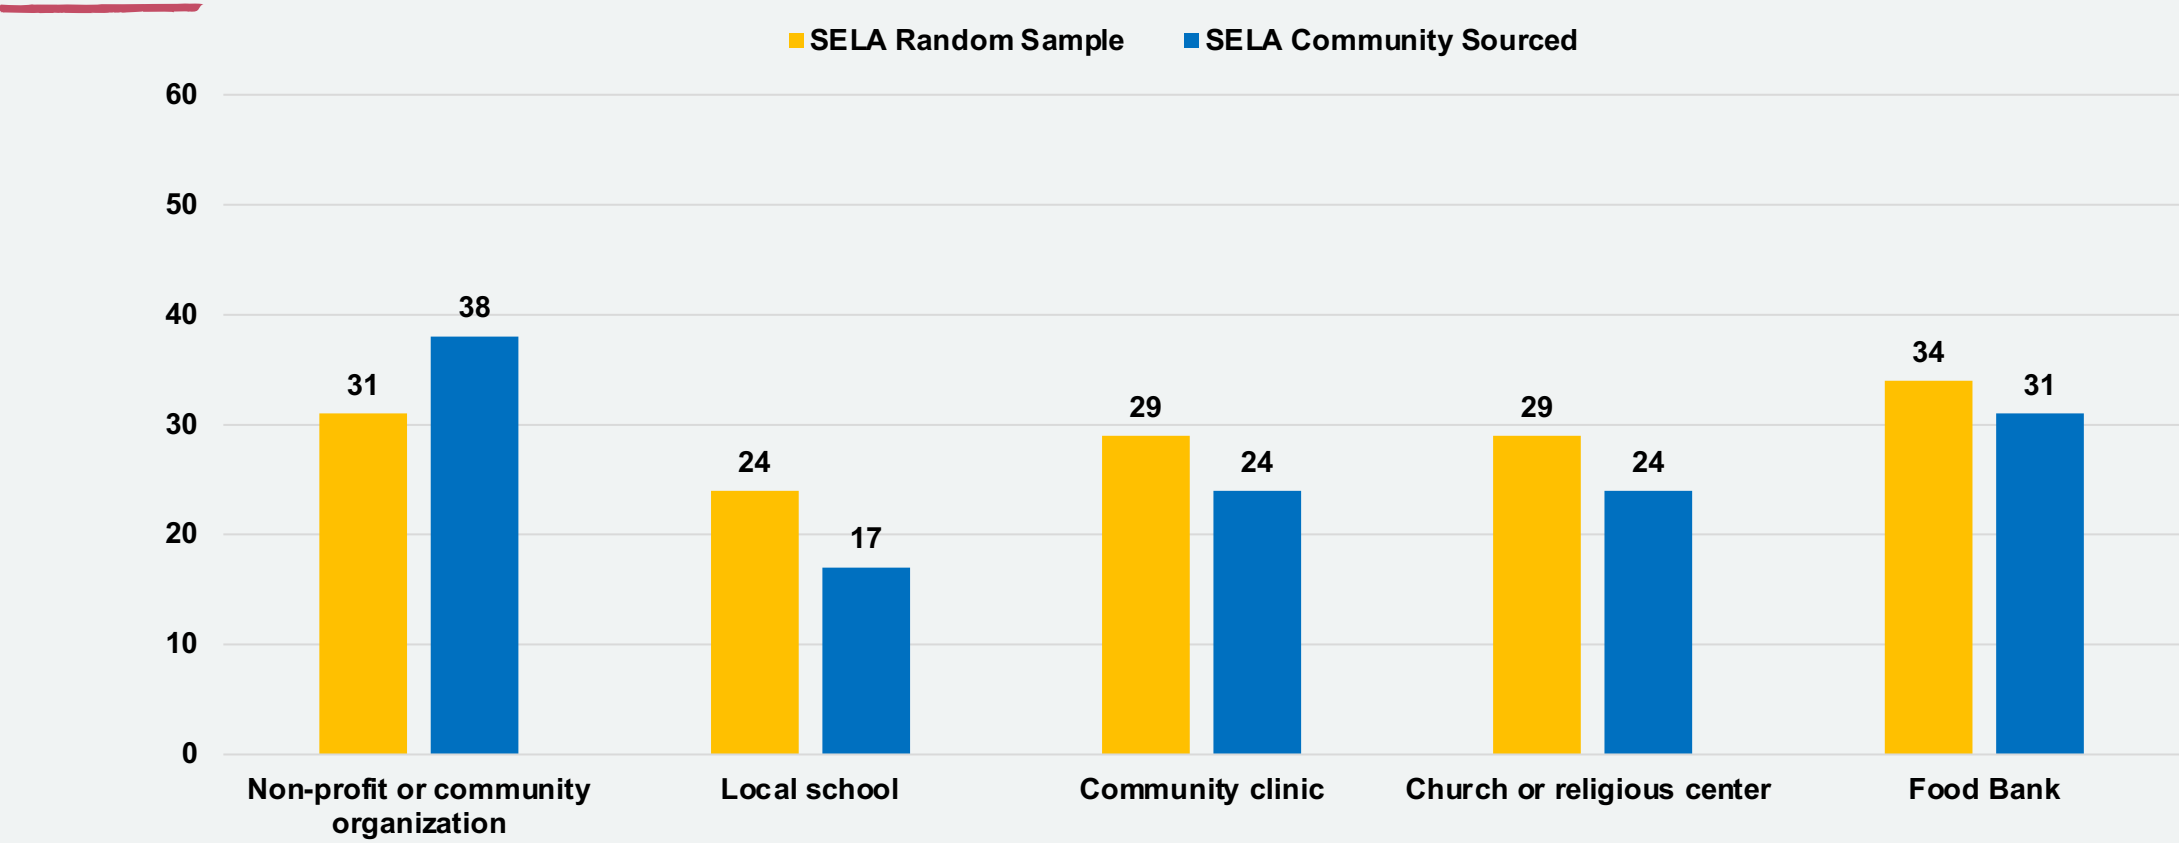

# *An alarming amount reported having less than \$100 saved for emergencies*

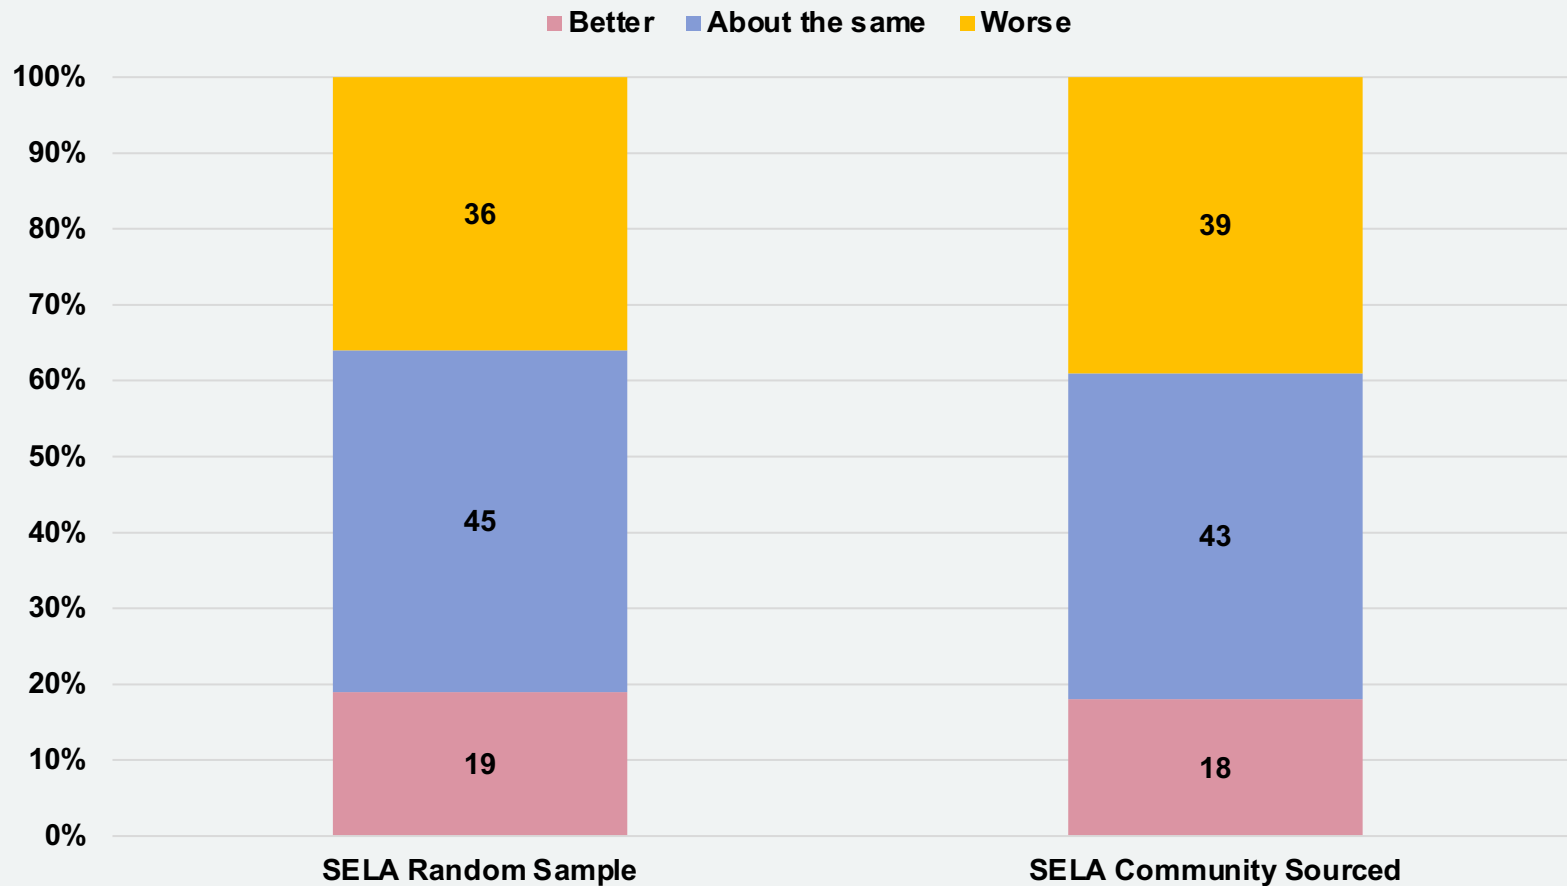

# About 2 in 10 face food insecurity and about 3 in 10 face housing insecurity

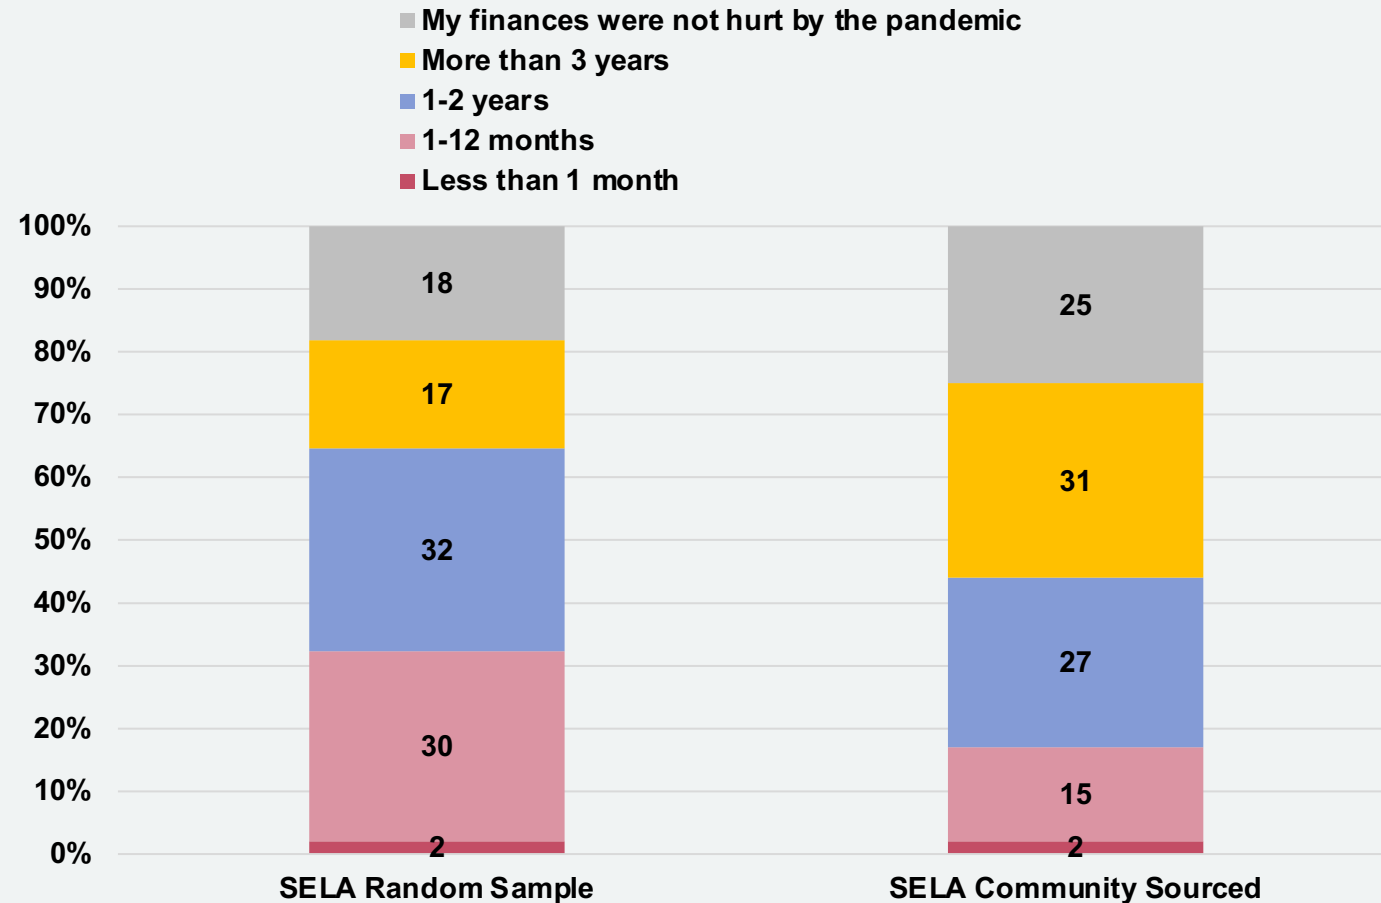

# *Close to a third have relied on several organizations for access to essential needs*

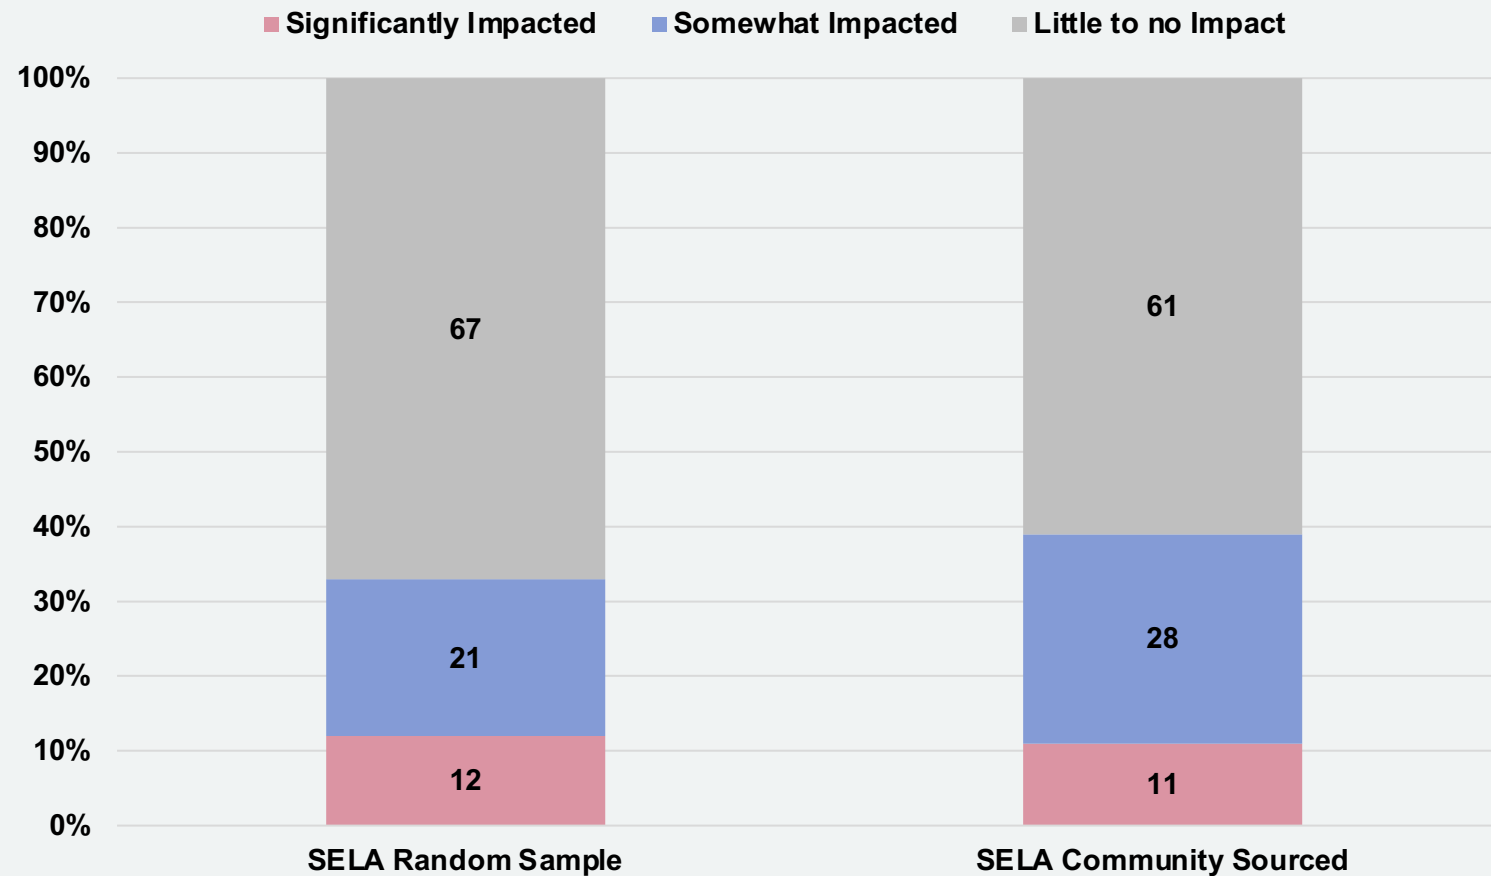

# *The financial situation of over a third of SELA respondents worsened since the pandemic began*

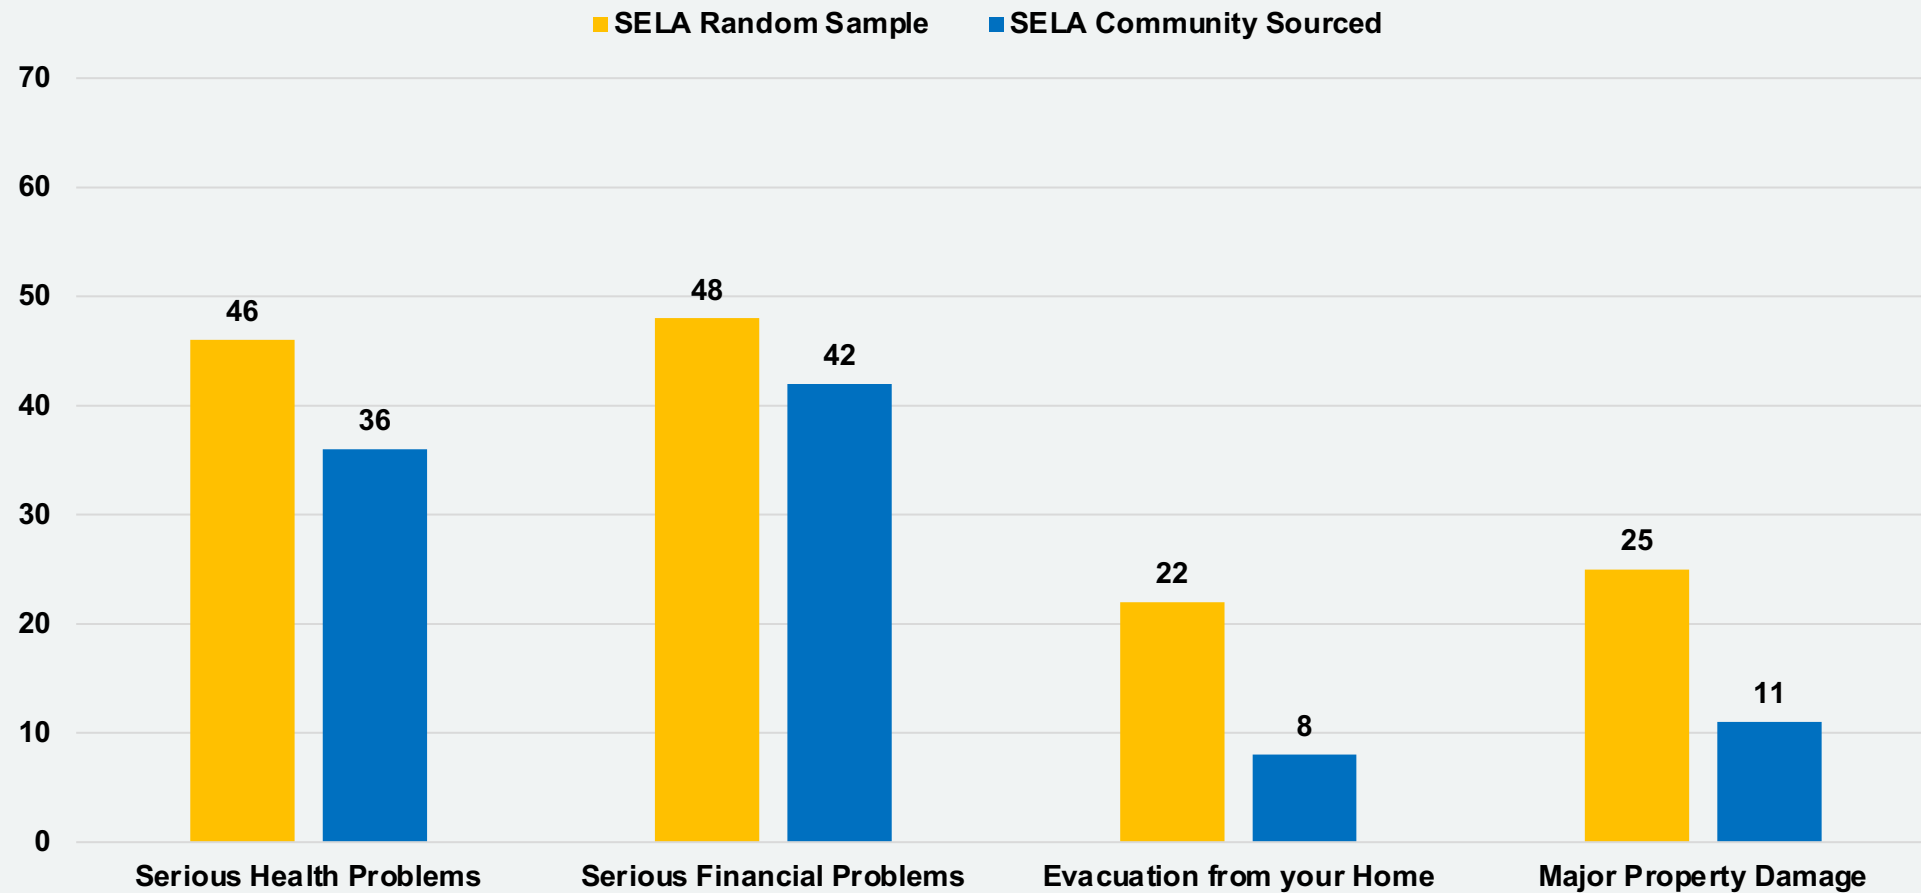

# *1 in 6 respondents believe it will take them more than 3 years to recover economically*

# *A third reported having been affected by extreme weather (heat, wildfires, drought, etc.)*

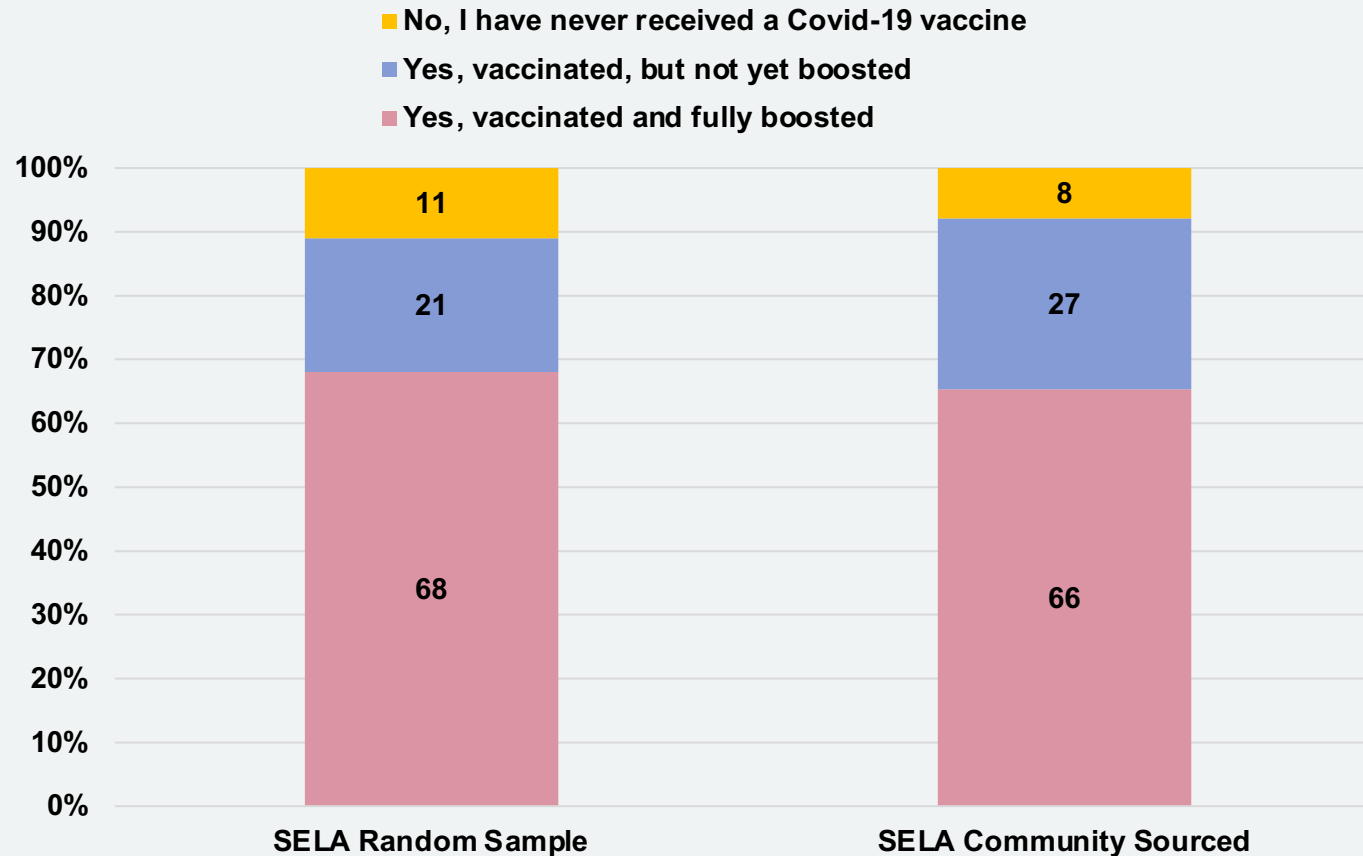

# *Close to half reported suffering serious health and financial problems due to extreme weather*

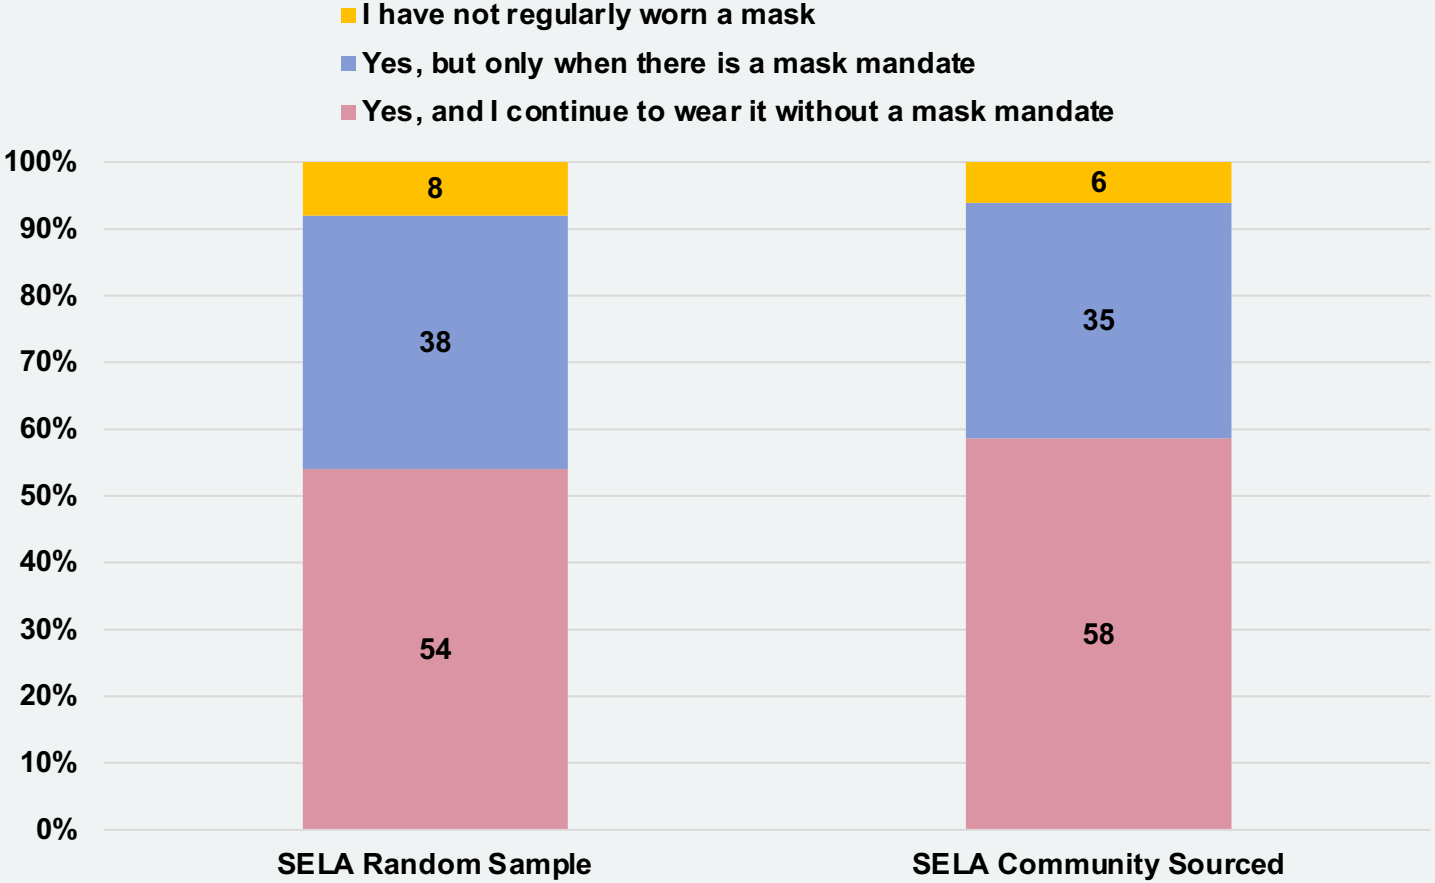

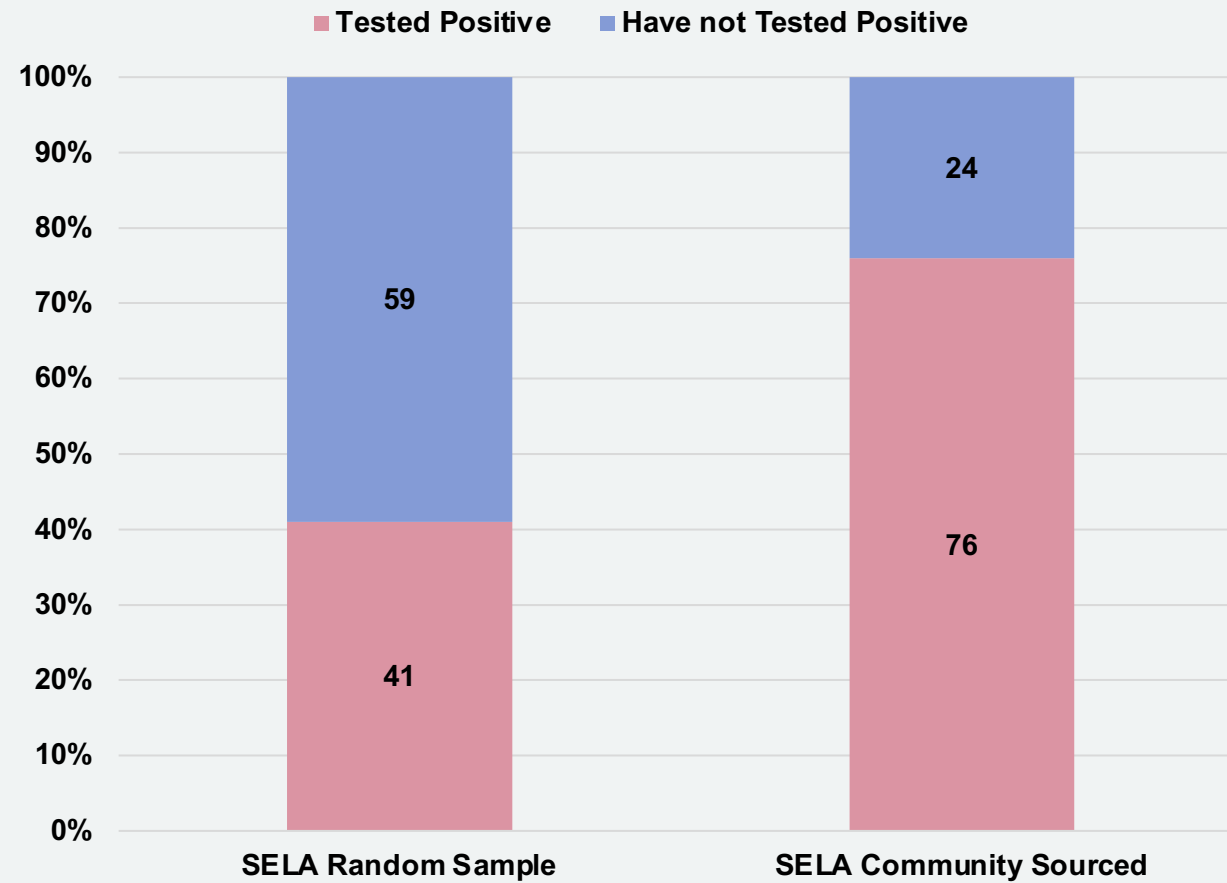

# *Vast majority have received at least 2 COVID vaccines*

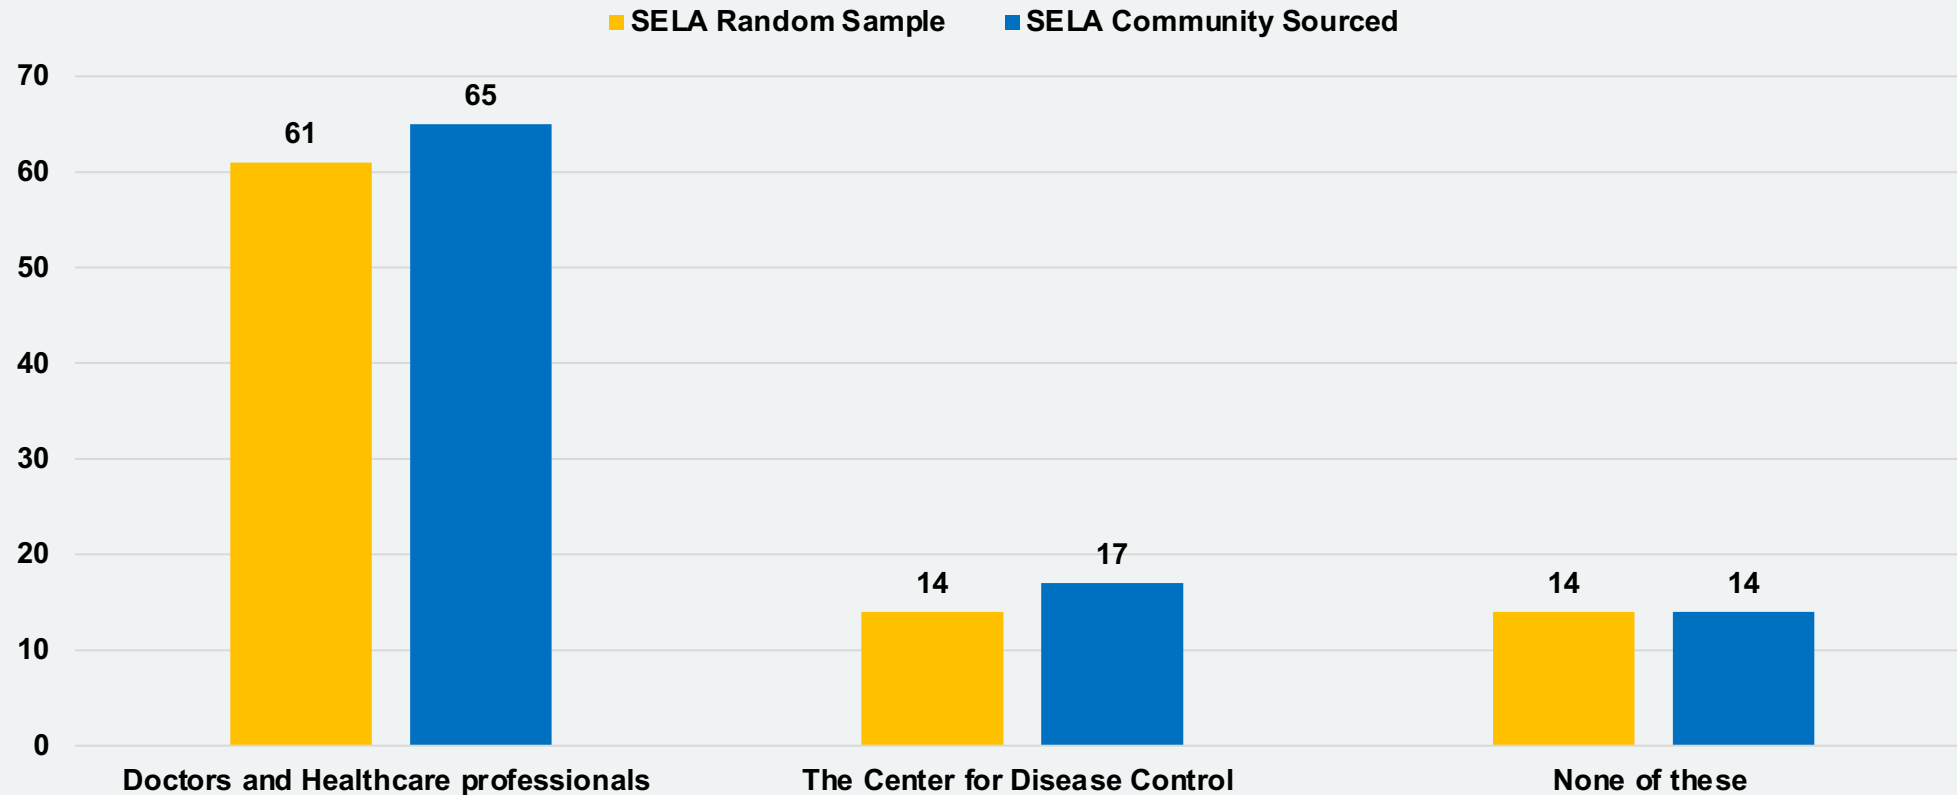

# Majority reports regularly wearing their mask

# *4 in 10 reported testing positive for COVID*

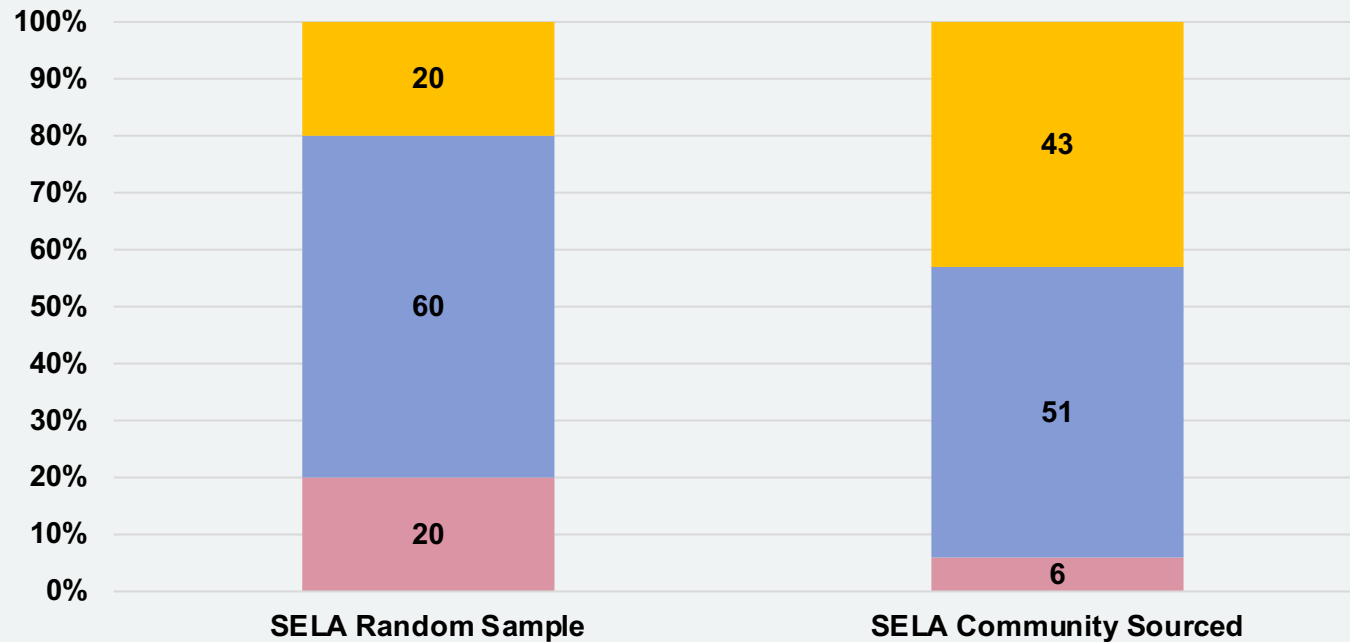

# *Doctors and healthcare professionals are the most trusted messengers for COVID guidance and recommendations*

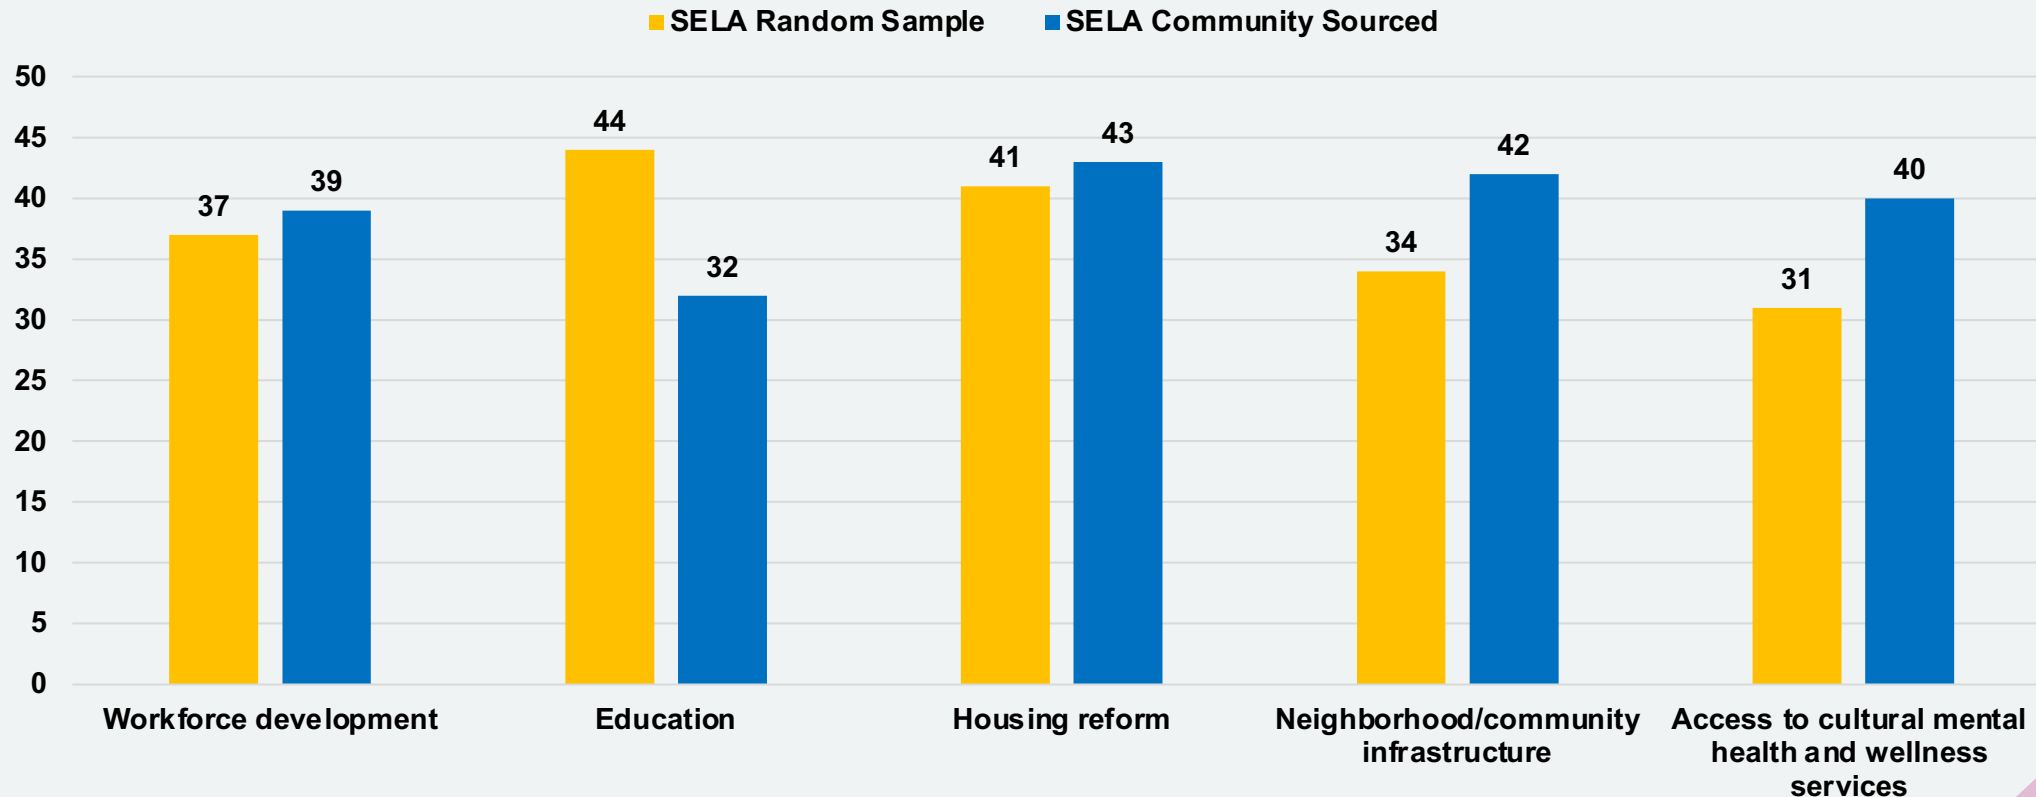

# Majority believes the worst of the pandemic is over and there is a need to address the issues it created

- SELA continues to be impacted by the pandemic and the other issues it has created
- The worst of the Covid-19 pandemic is over, we have adjusted to the new normal and it's time we start addressing the issues created by the pandemic
- The Covid-19 pandemic is over and its time we move on

# *SELA respondents highlight education, housing reform, and workforce development as crucial priorities*
