About the Survey

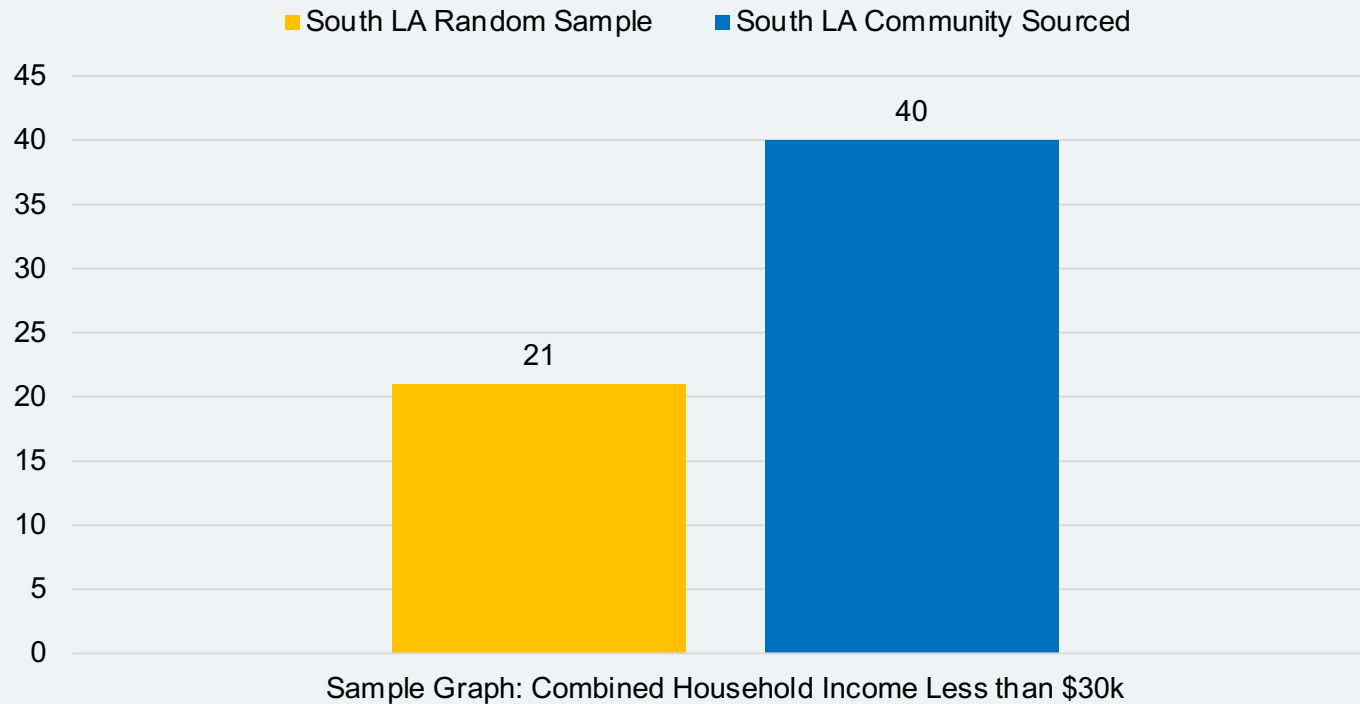

- Total N=3,000 (+/-1.8%) Los Angeles Residents
 - Antelope Valley, Long Beach, San Fernando Valley, San Gabriel Valley, SELA, South LA
- South Los Angeles
 - Random Sample N=500 (+/-4.4%)
 - Residents of South LA randomly selected so that each member has an equal chance of being chosen
 - Community Sourced N= 164
 - Participants selected by accessibility and represent the network of community-connected residents of South LA
- Focus is on pandemic recovery

About the Survey

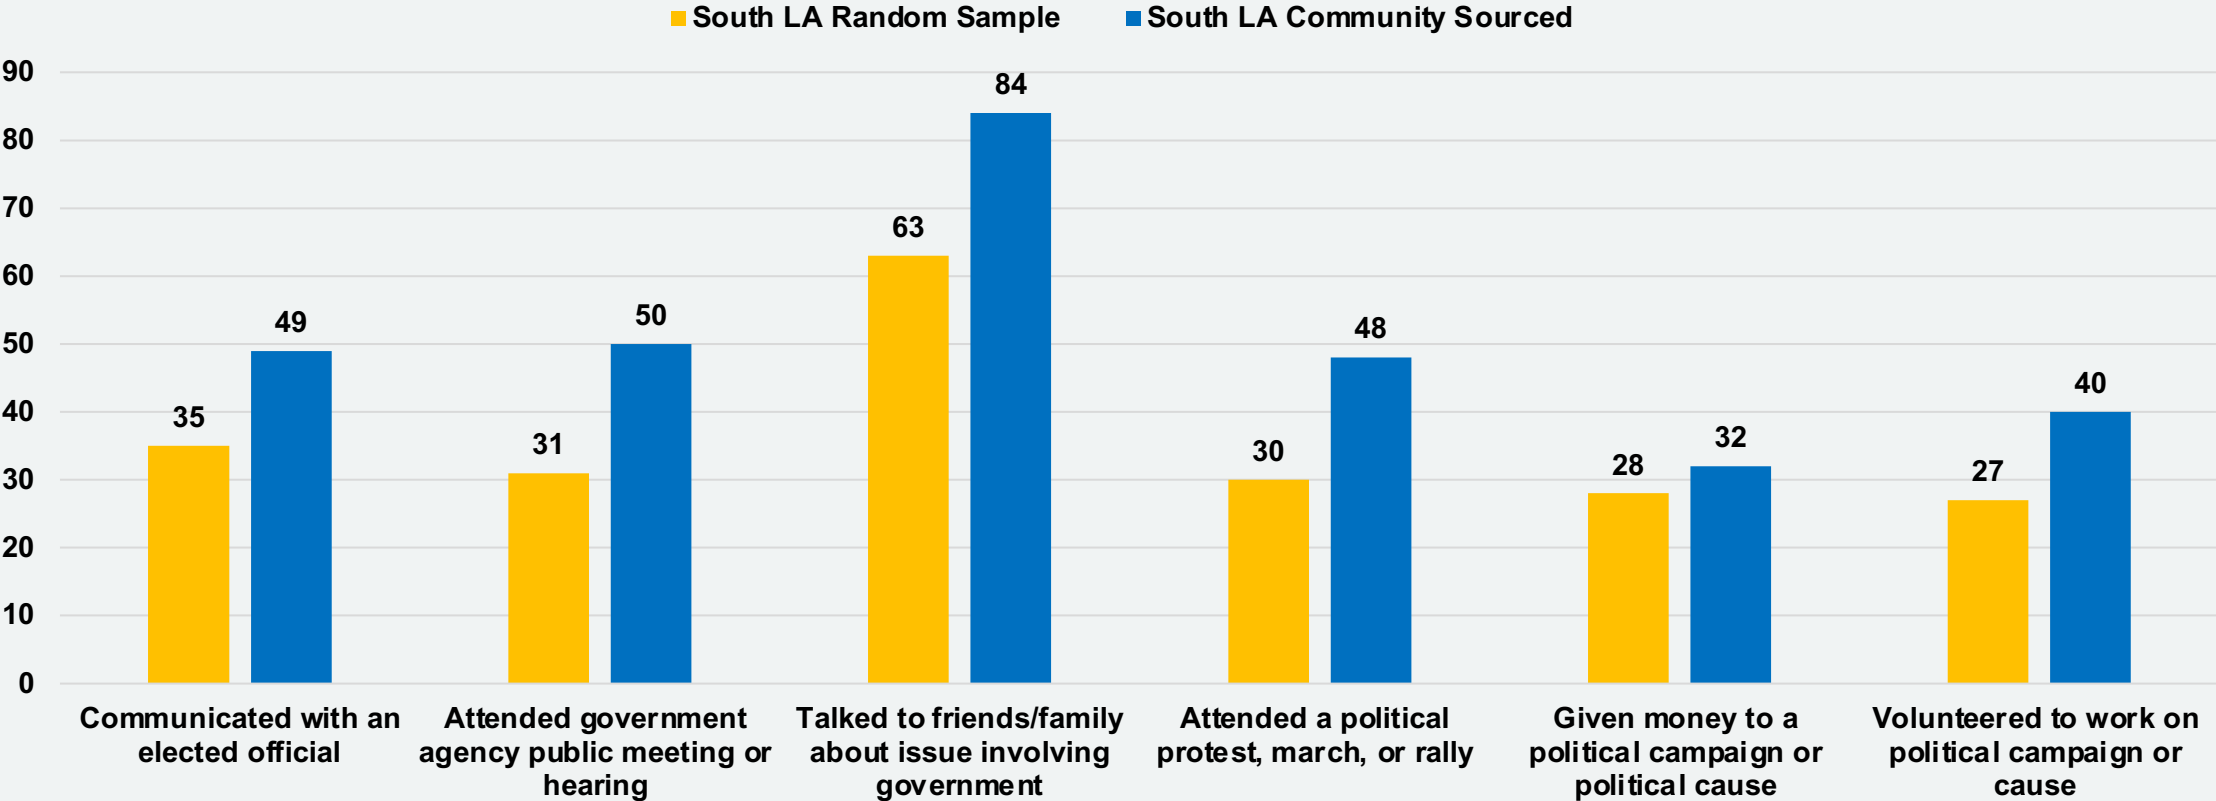

- Conducted by BSP under the direction of Matt Barreto, PhD
- Field Dates: November 16, 2022 - January 14, 2023
- English & Spanish
- Mixed Mode: 75% online, 25% telephone

Roadmap to Understanding the Results & Comparisons

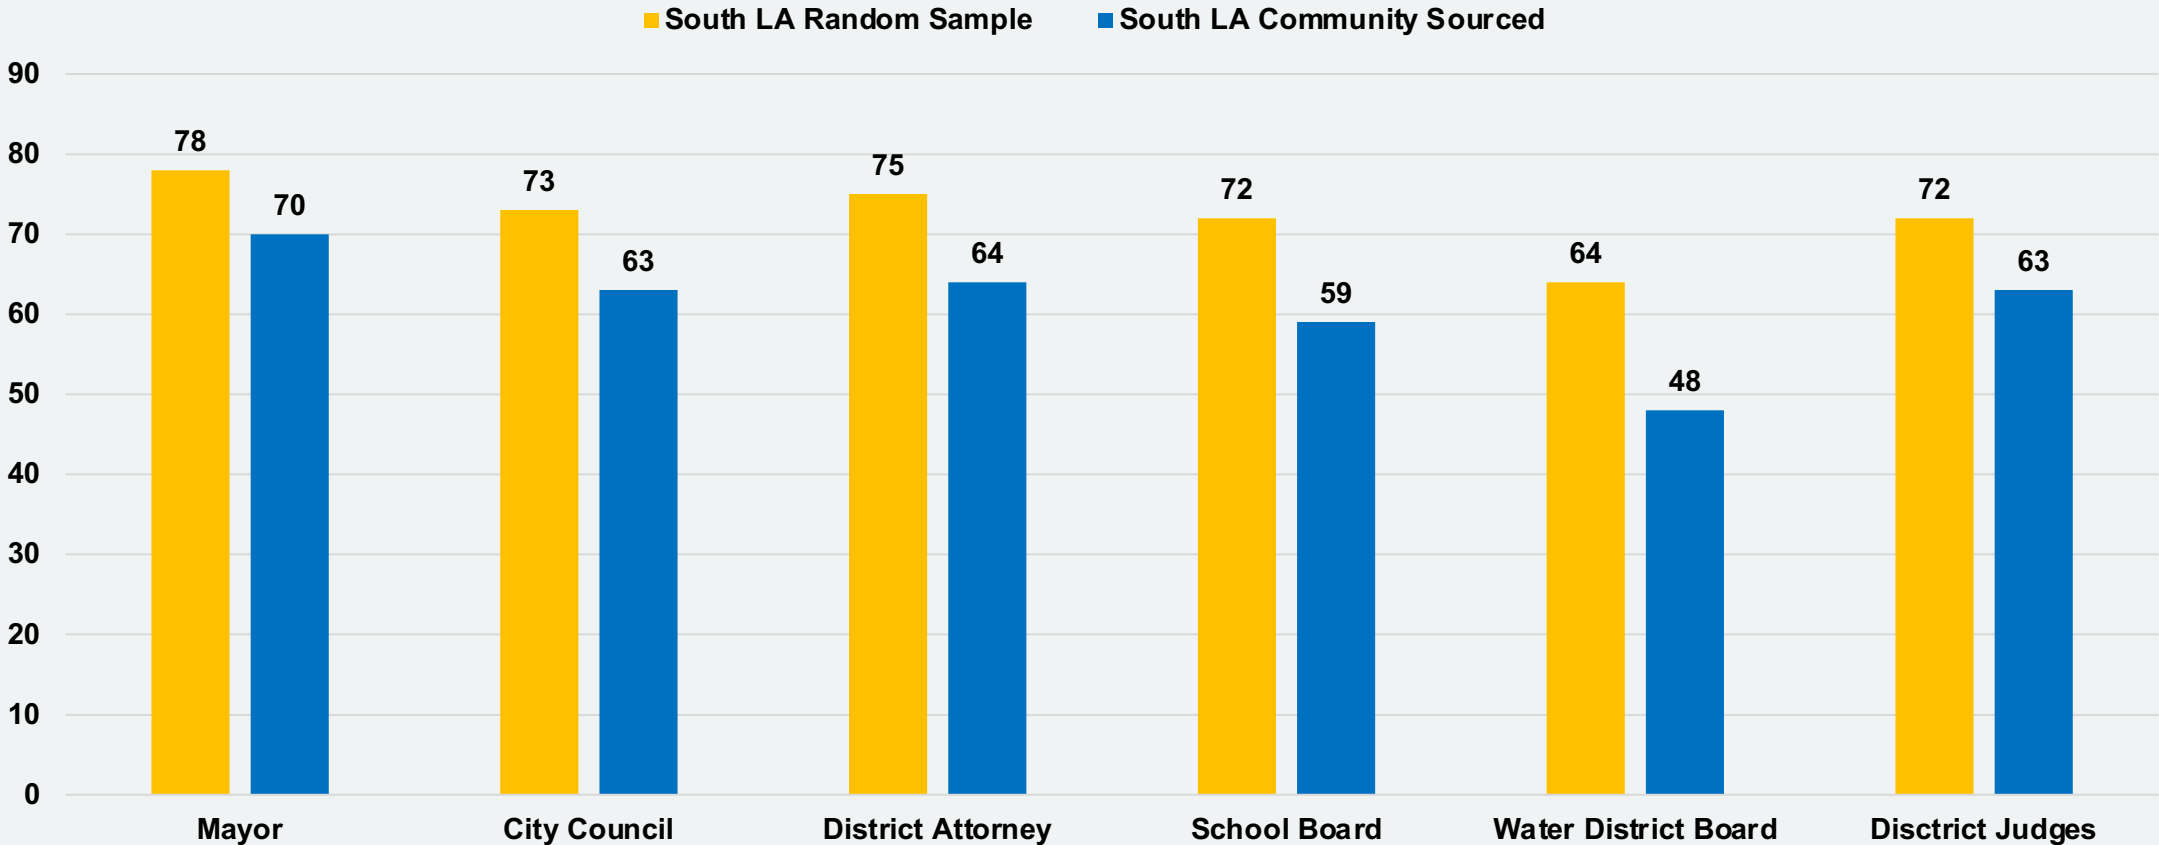

- South LA random sample
- South LA community sourced sample

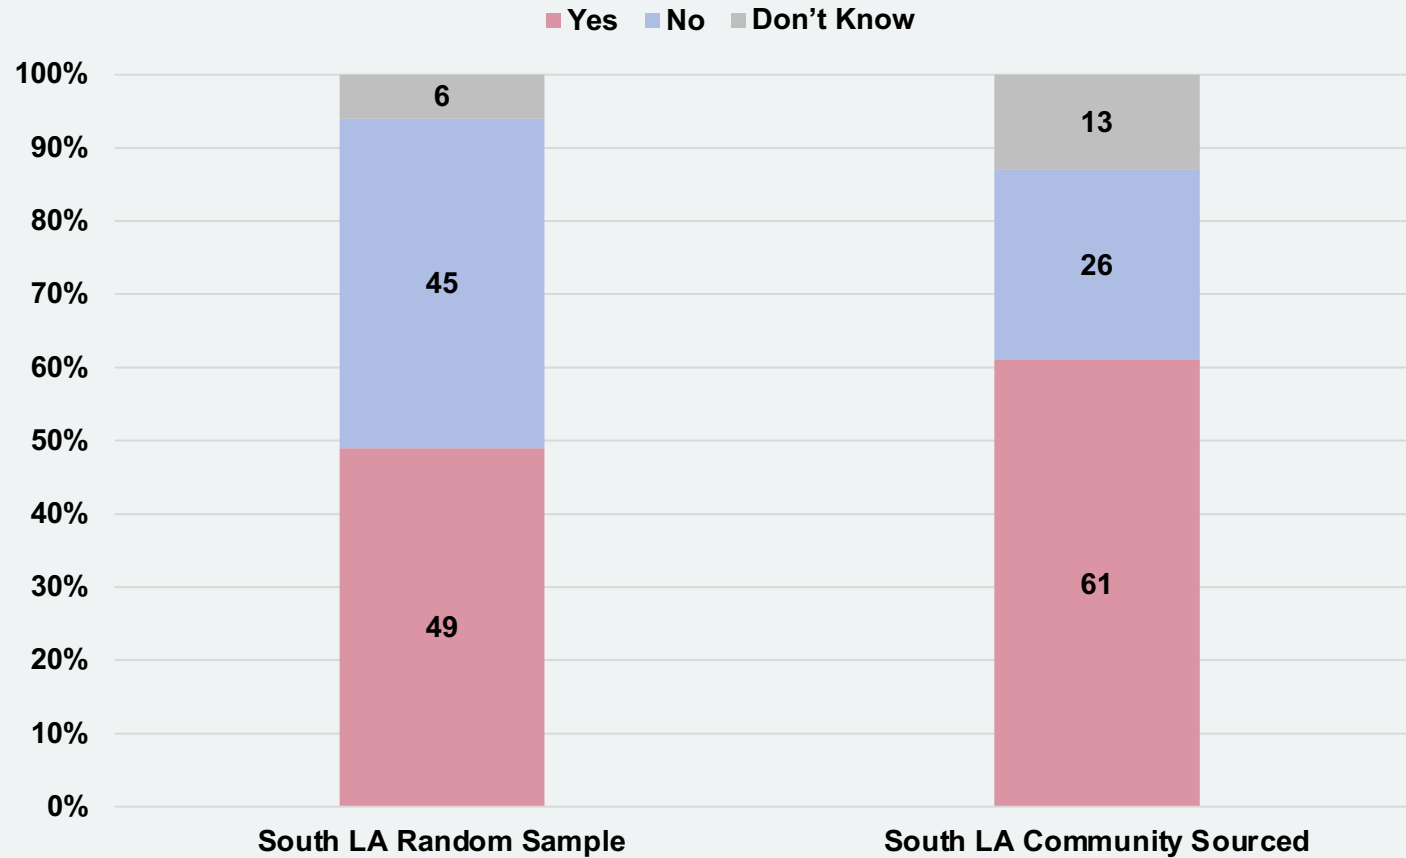

South LA respondents were very likely to talk with friends/family about an issue involving government during the pandemic

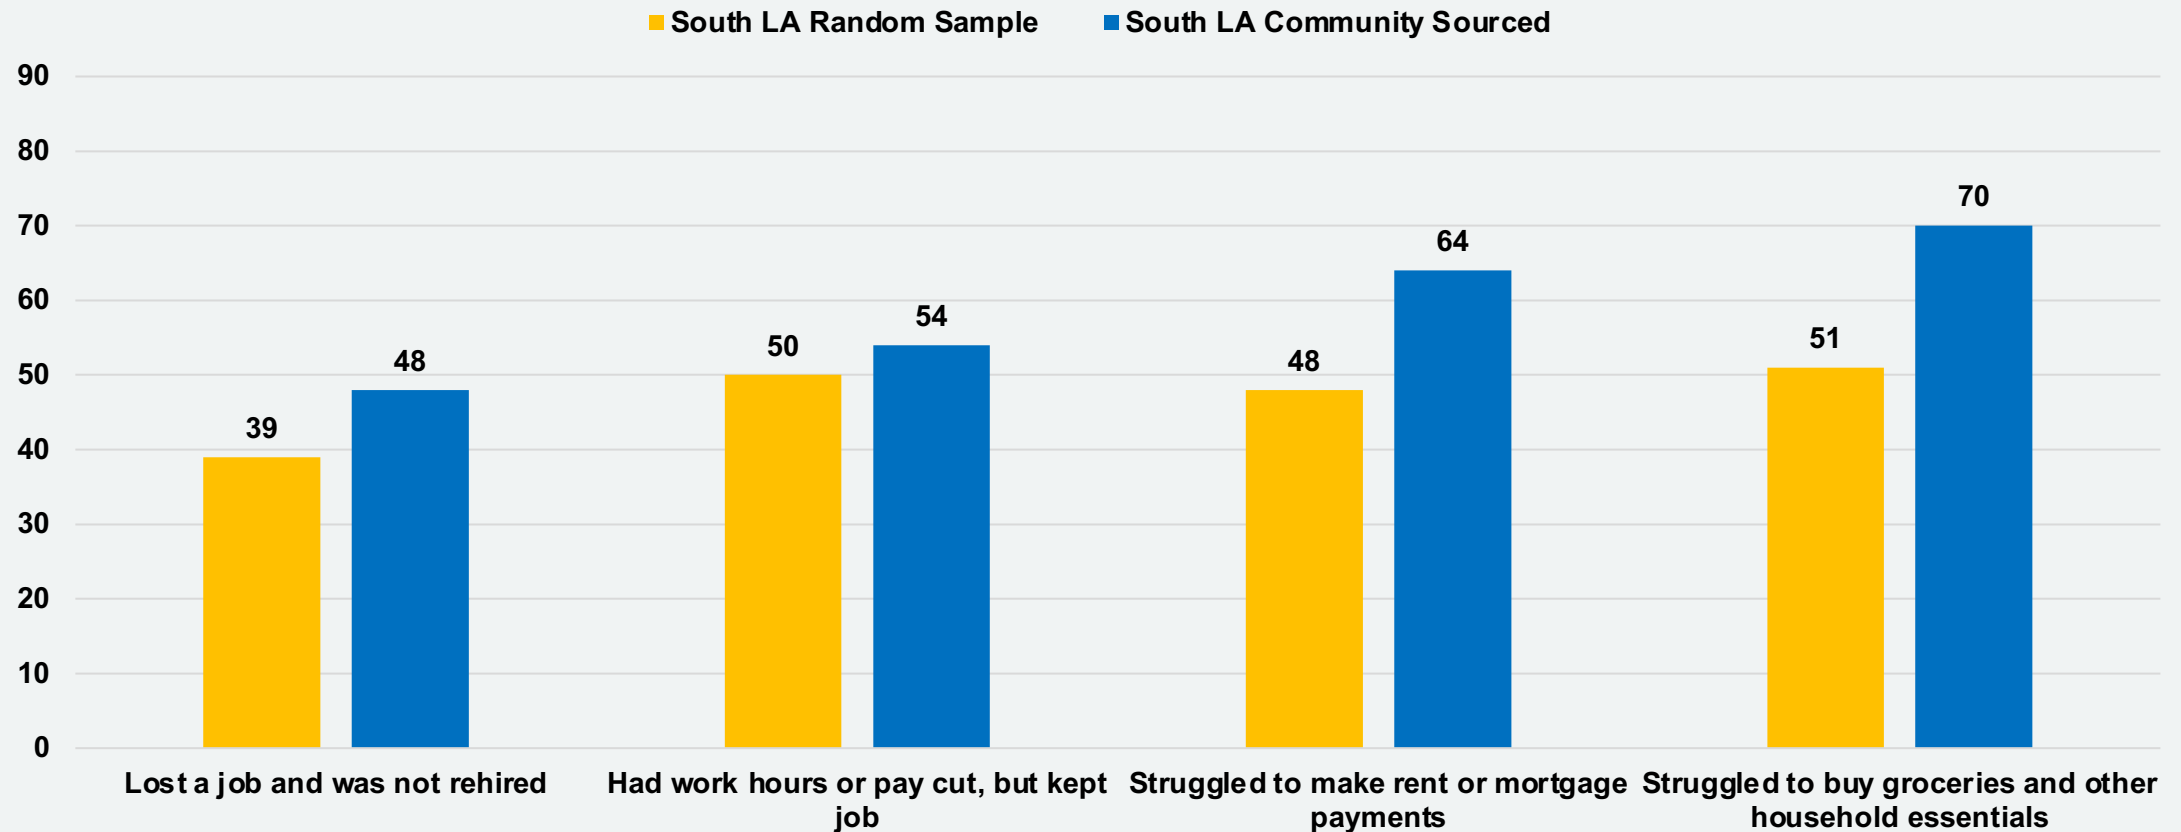

Majorities of South LA respondents reported voting for several local public offices

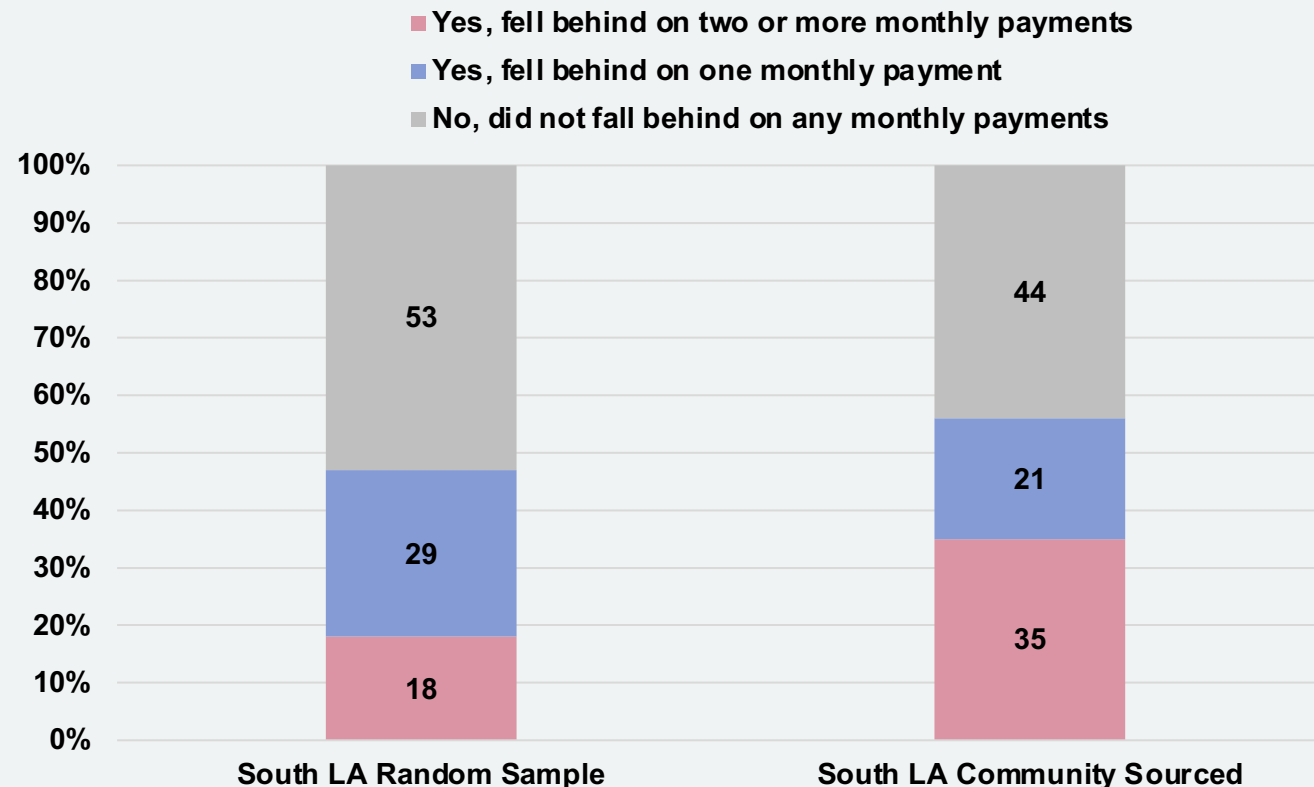

Voter engagement efforts reached about half of South LA respondents in the 2022 election cycle

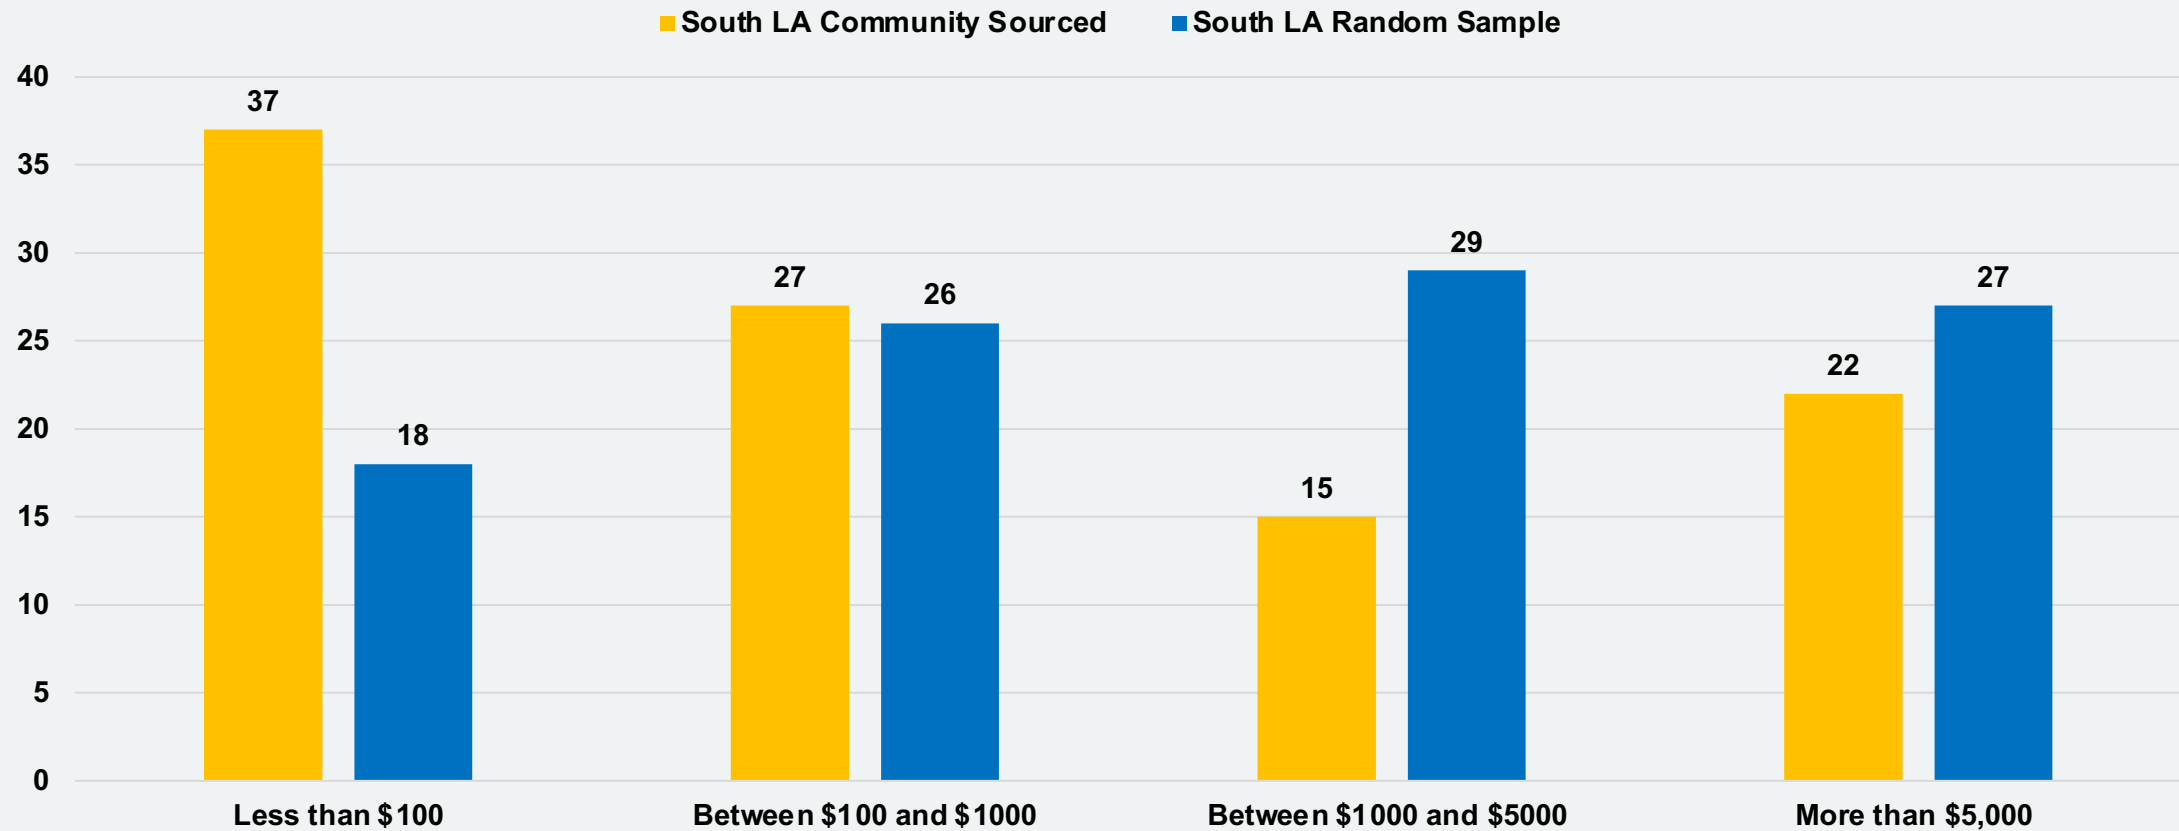

About half experienced cuts in work hours and struggled to make grocery and rent/mortgage payments during the pandemic

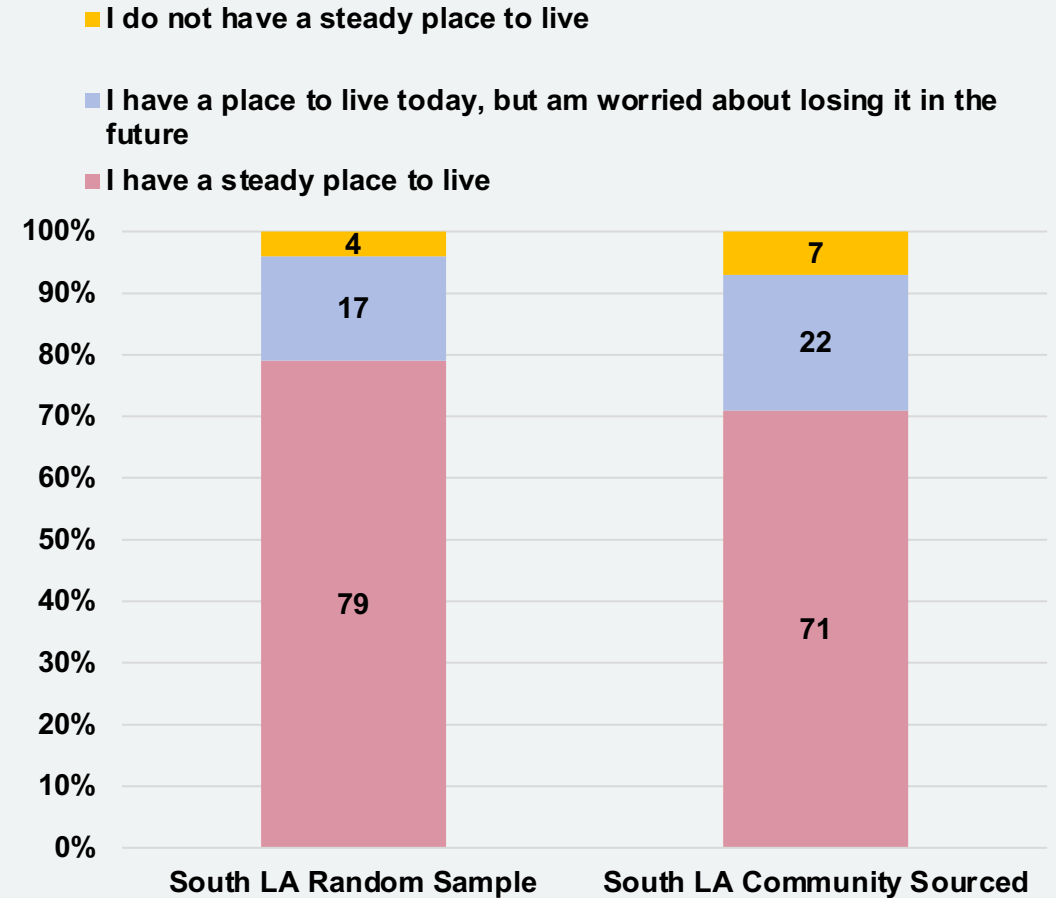

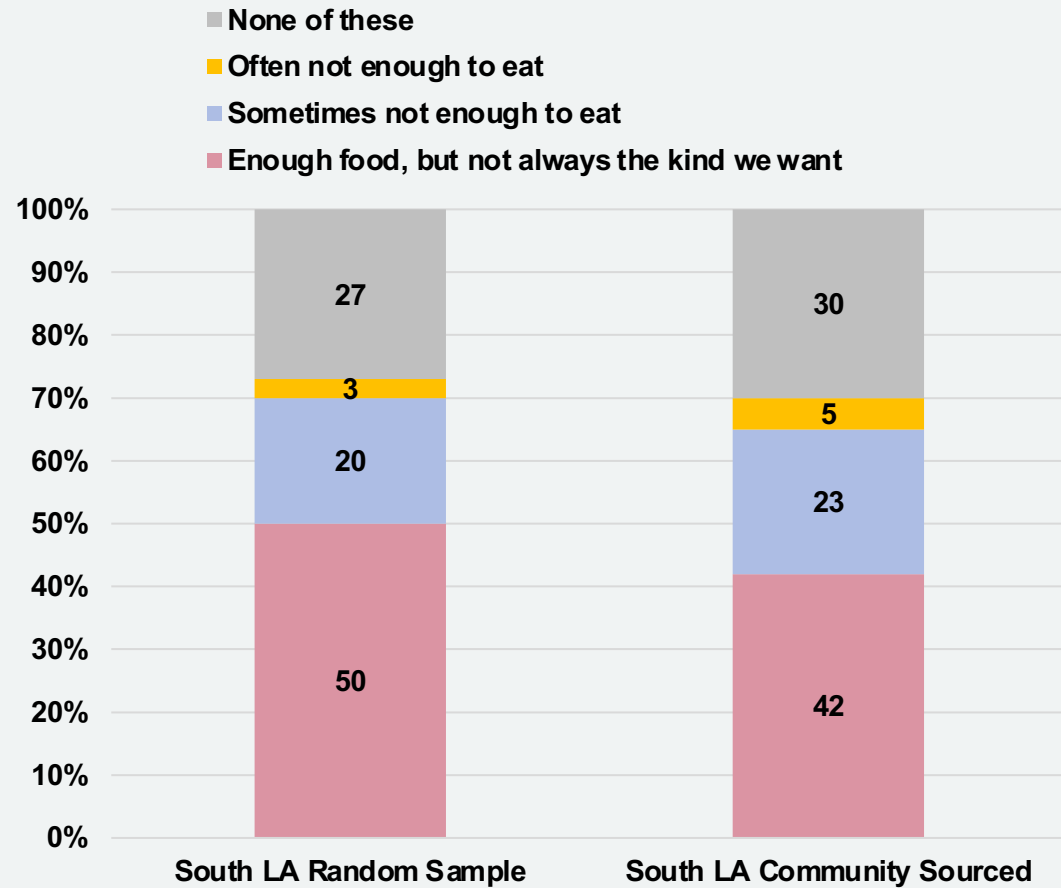

About half of South LA respondents fell behind at least 1 monthly payment (rent, mortgage, car, utility, etc.) since the pandemic began

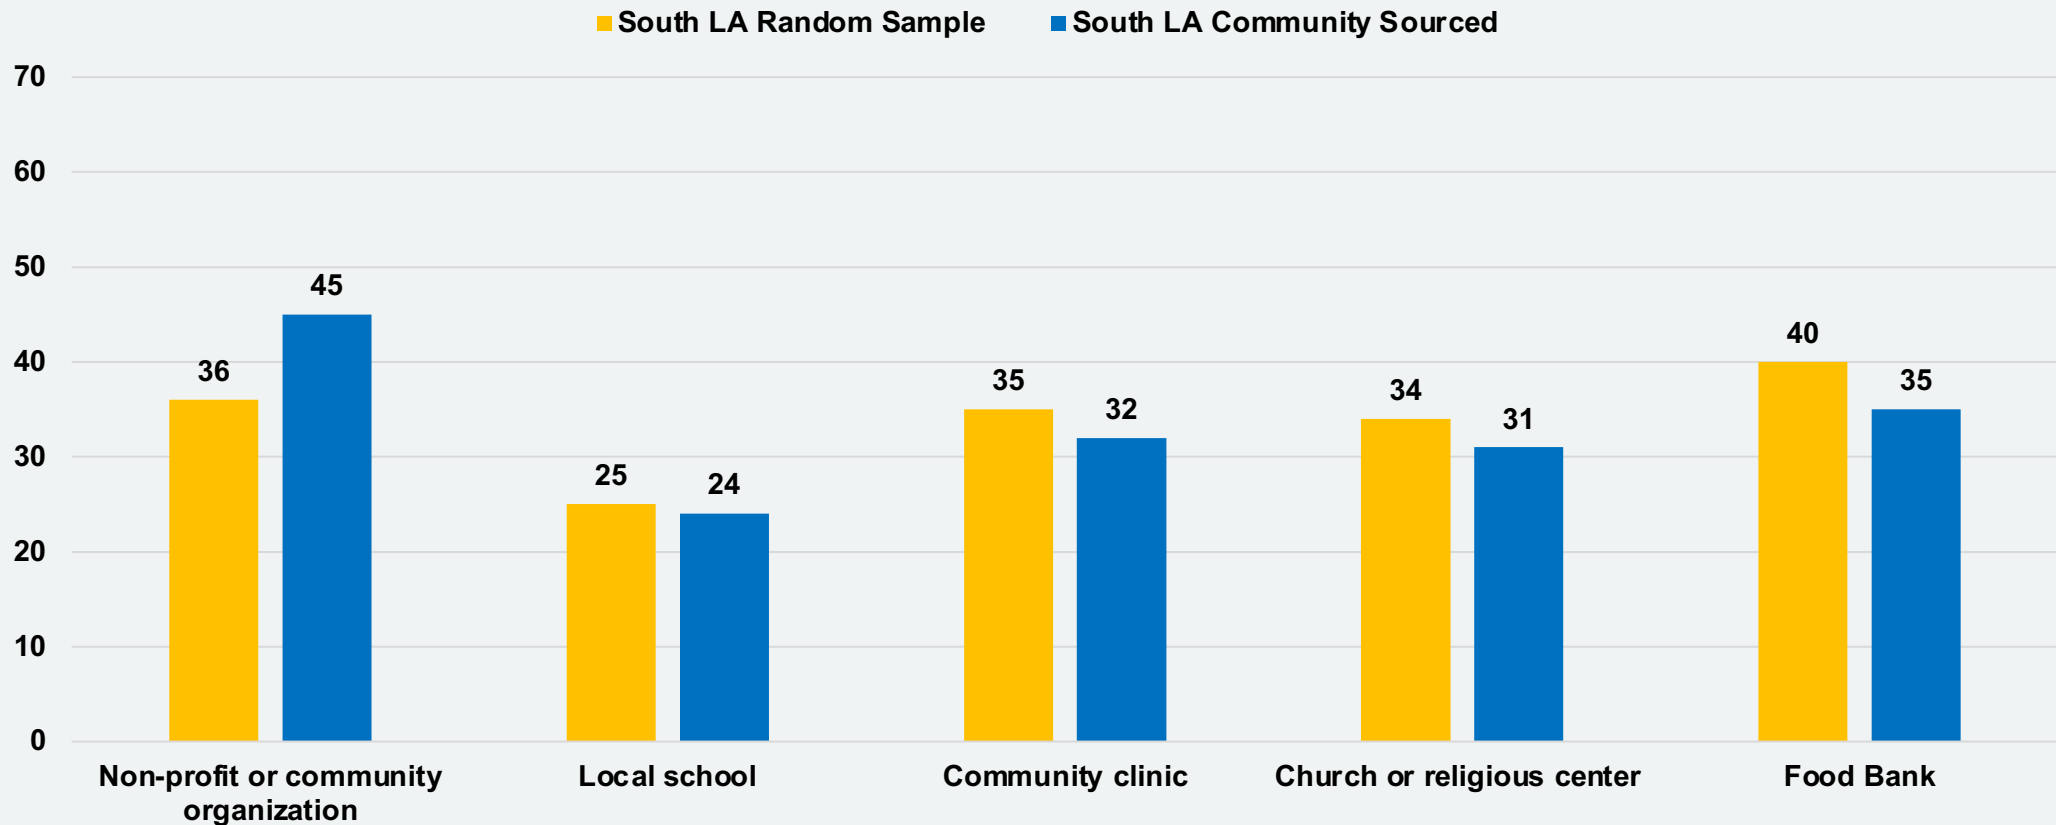

An alarming amount reported having less than \$100 saved for emergencies

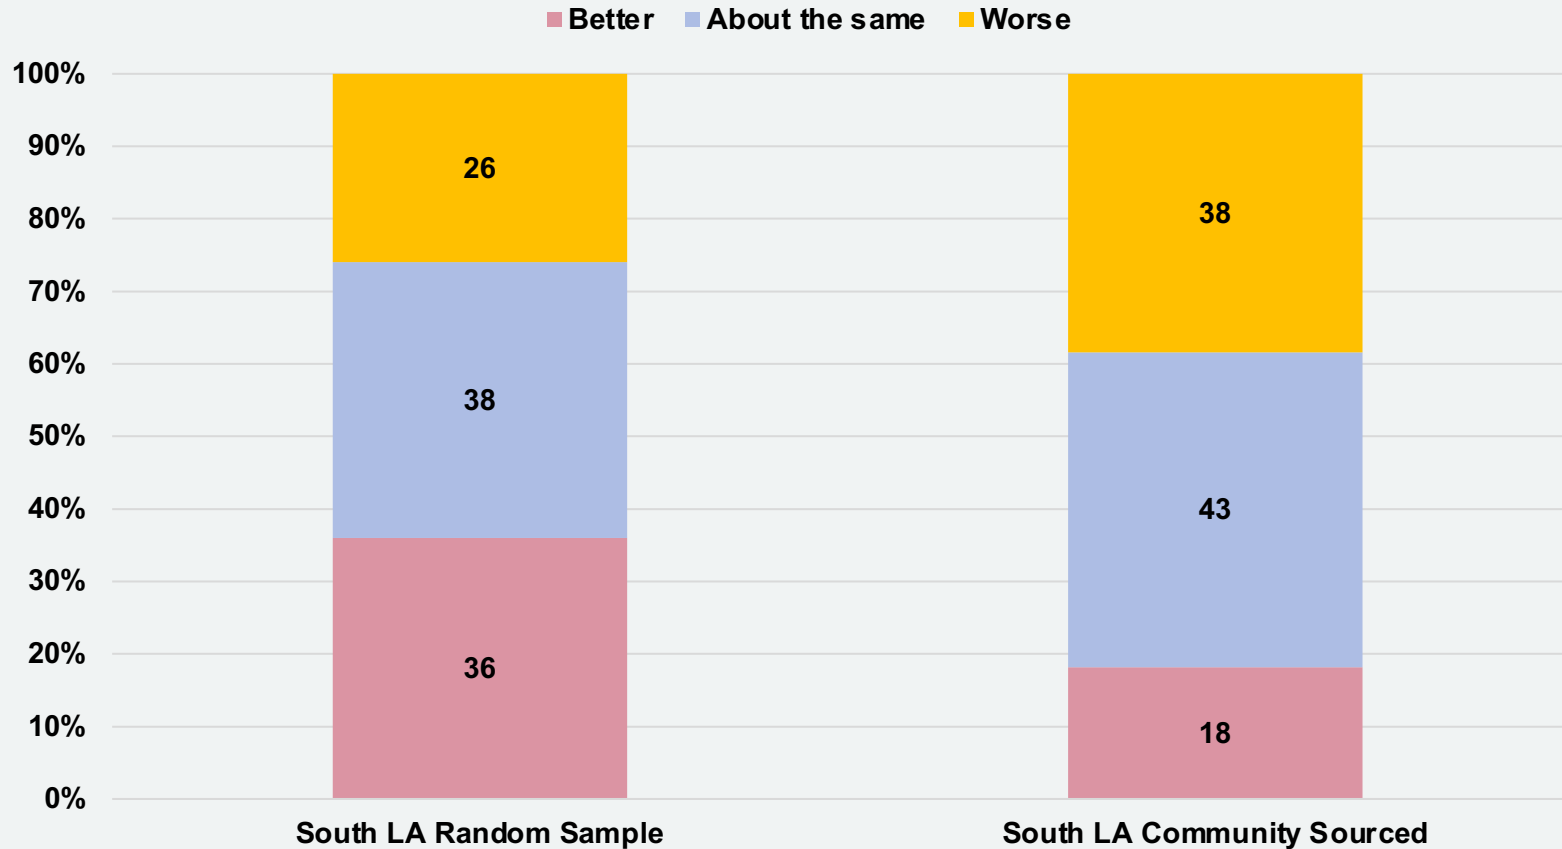

About 2 in 10 face food insecurity and about 2 in 10 face housing insecurity

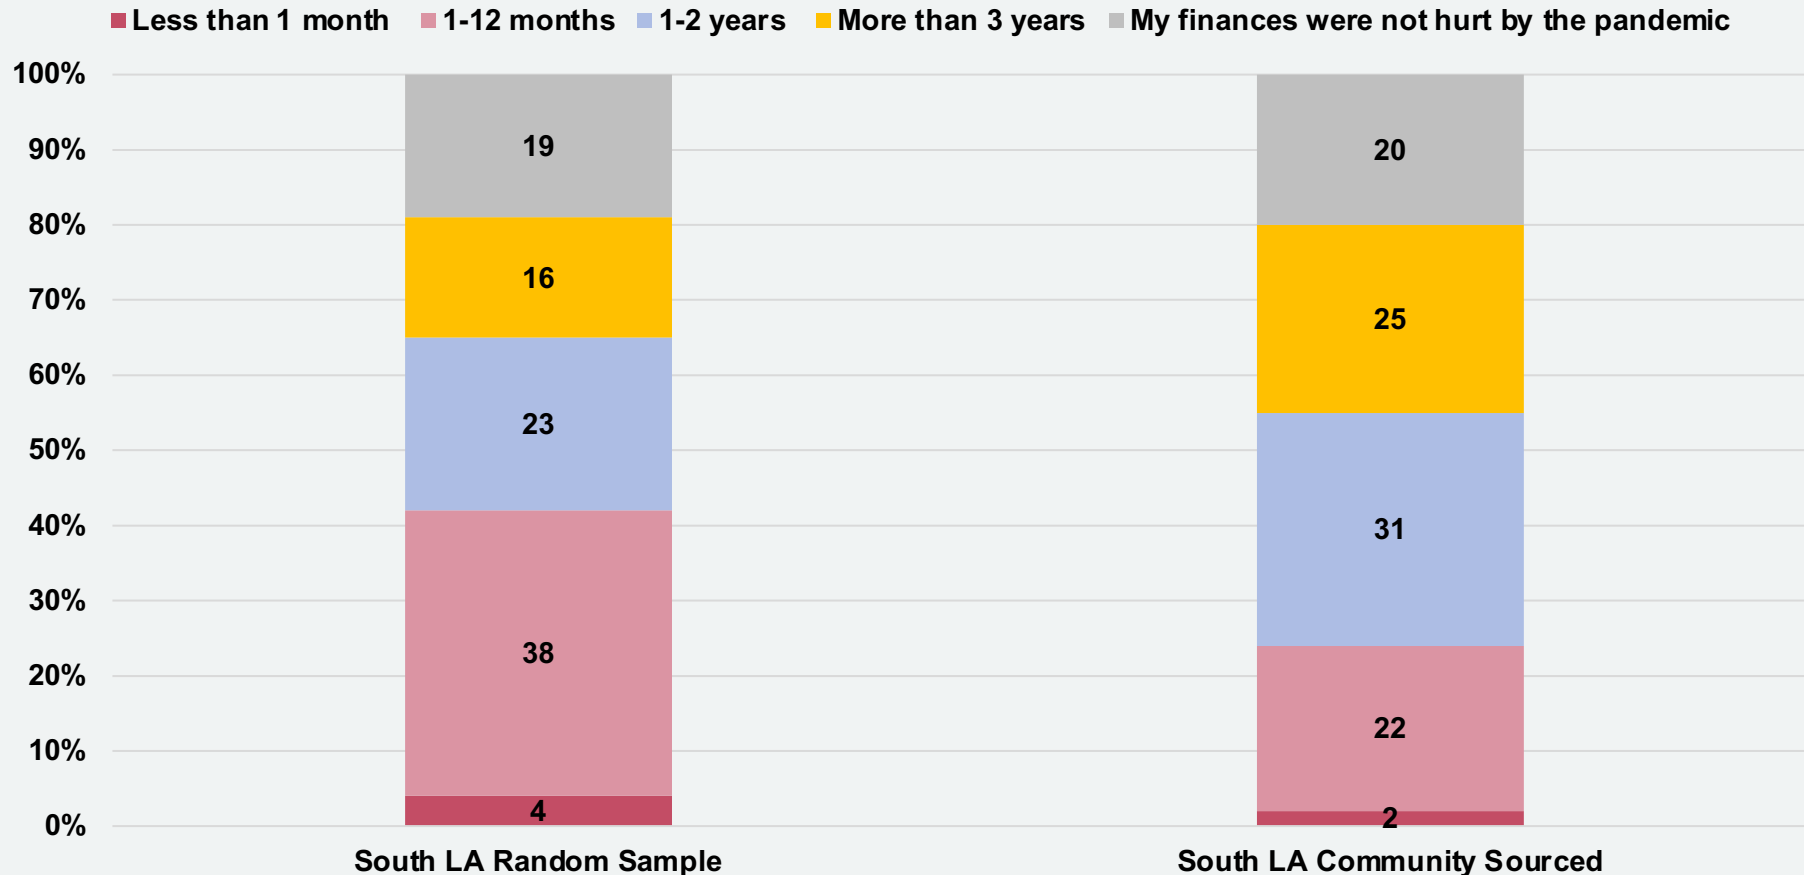

About a third of respondents have relied on several organizations for access to essential needs

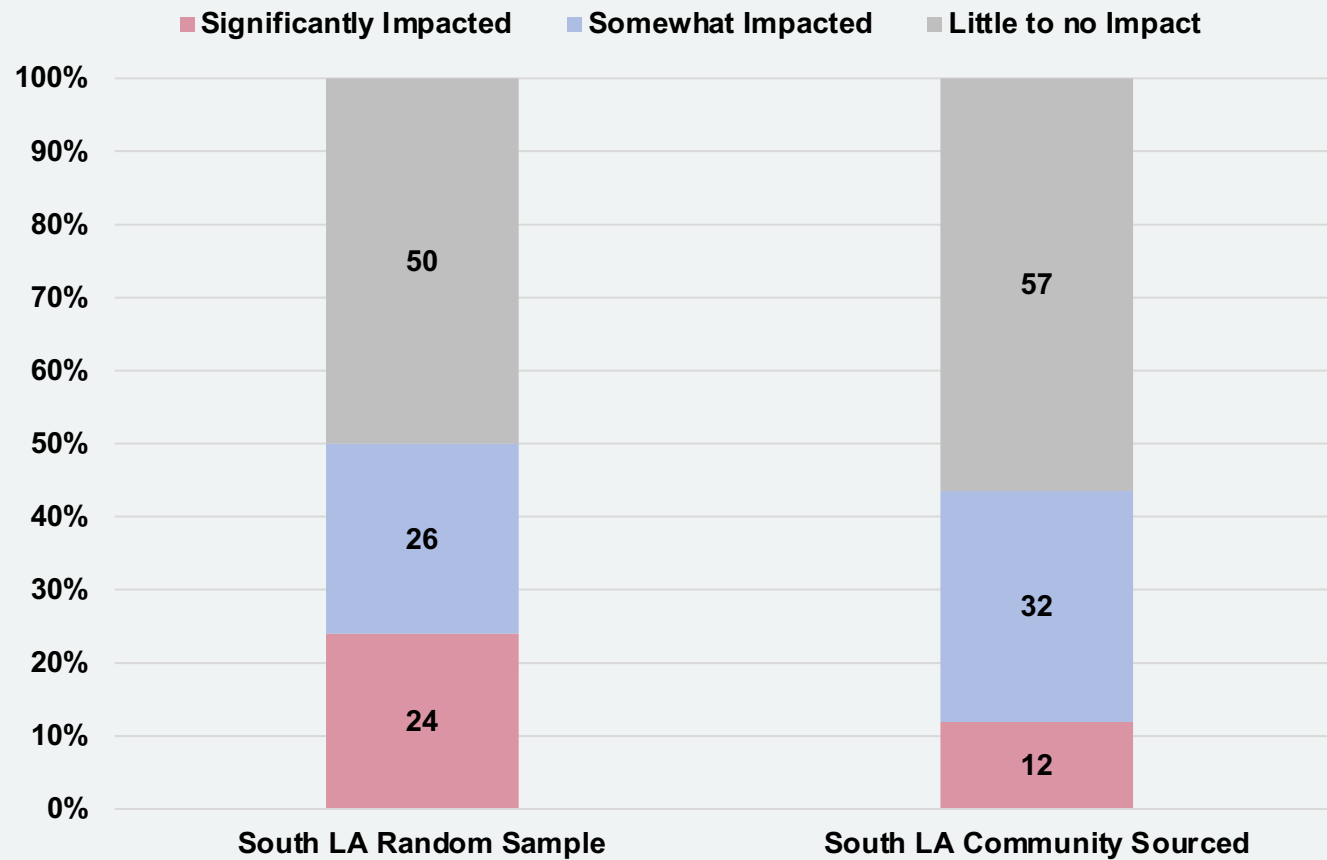

The financial situation of 1/4 of South LA respondents worsened since the pandemic began

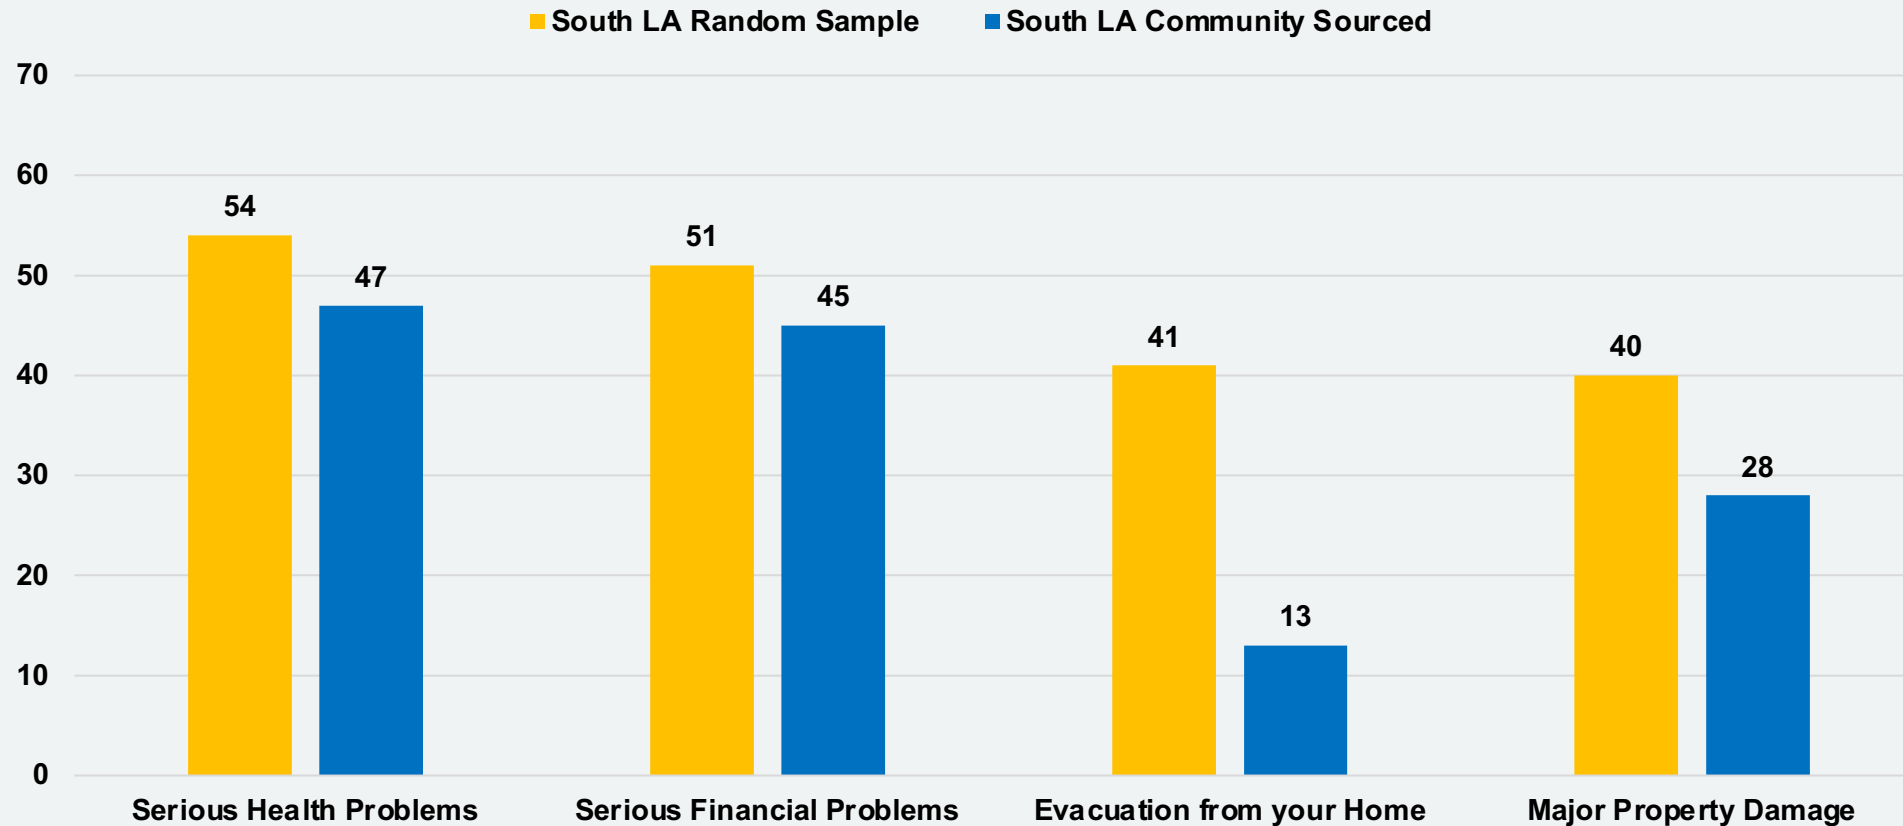

1 in 6 respondents believe it will take them more than 3 years to recover economically

Half report having been affected by extreme weather (heat, wildfires, drought, etc.)

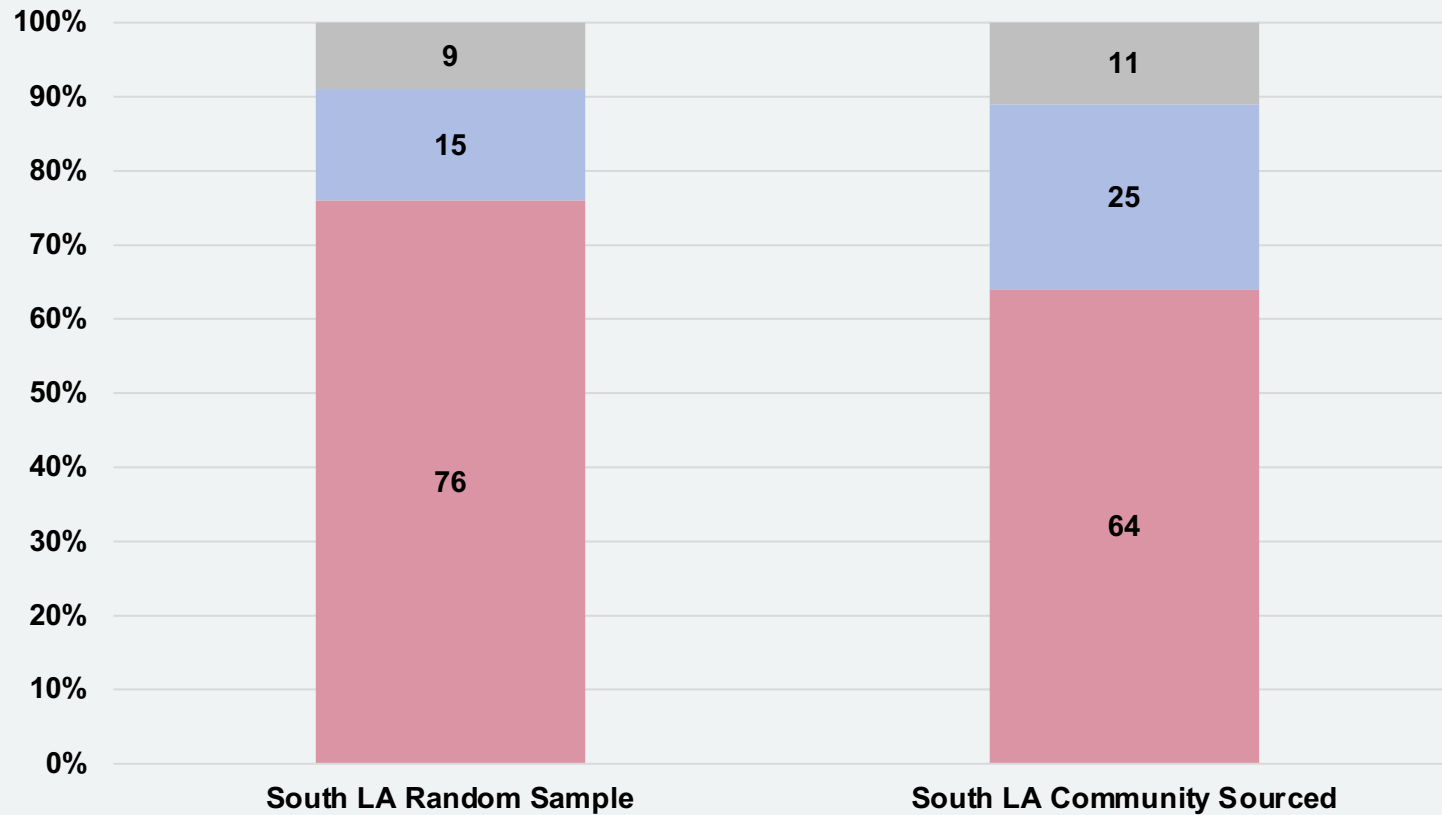

Slight majority reported suffering serious health and financial problems due to extreme weather

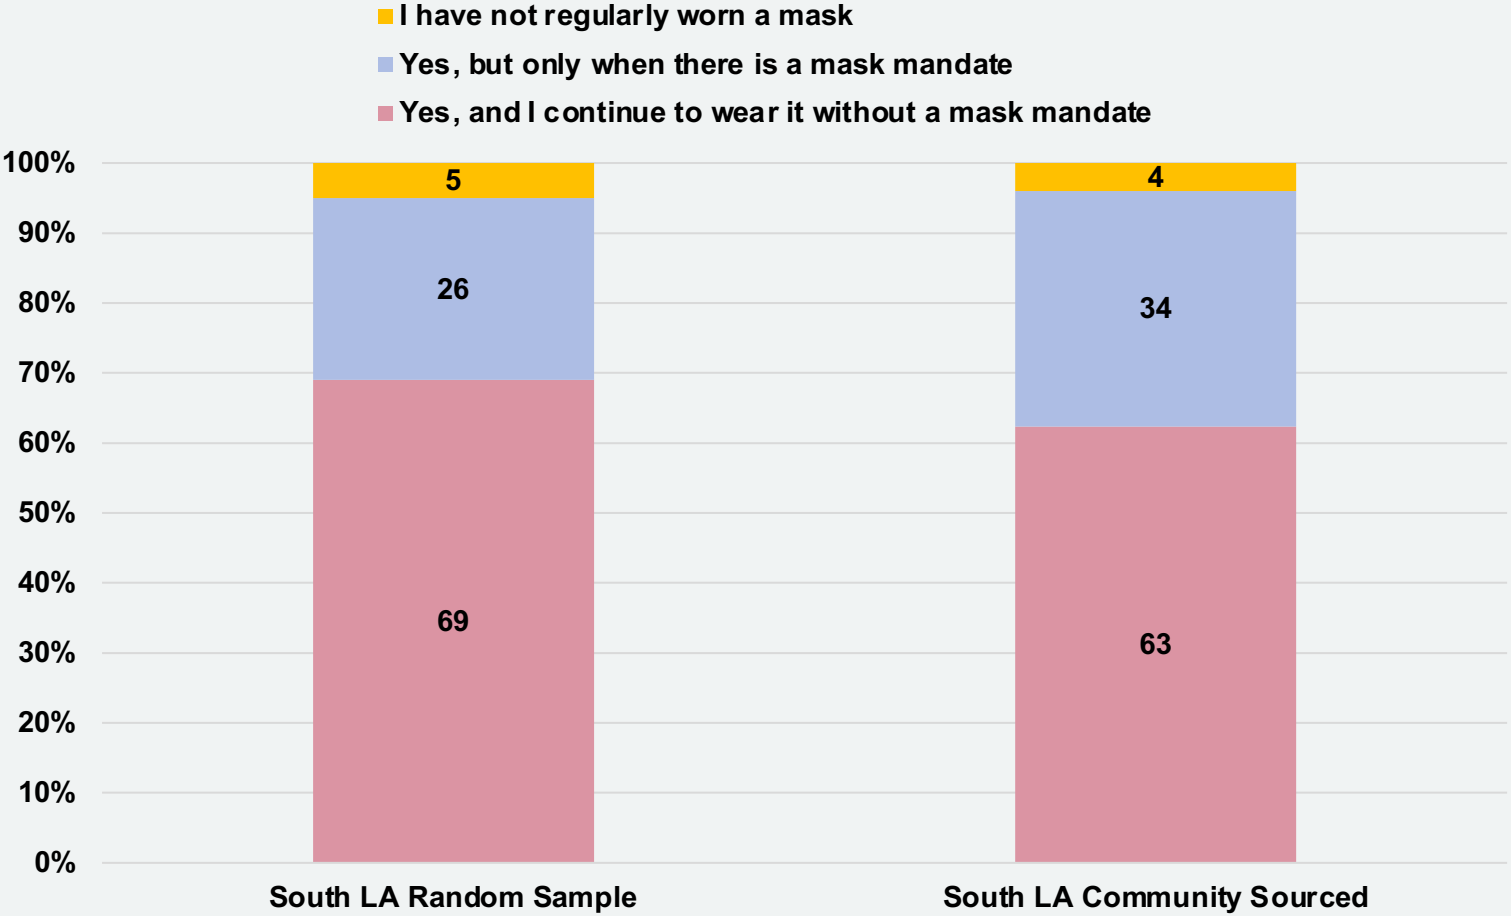

Vast majority have received at least 2 COVID vaccines

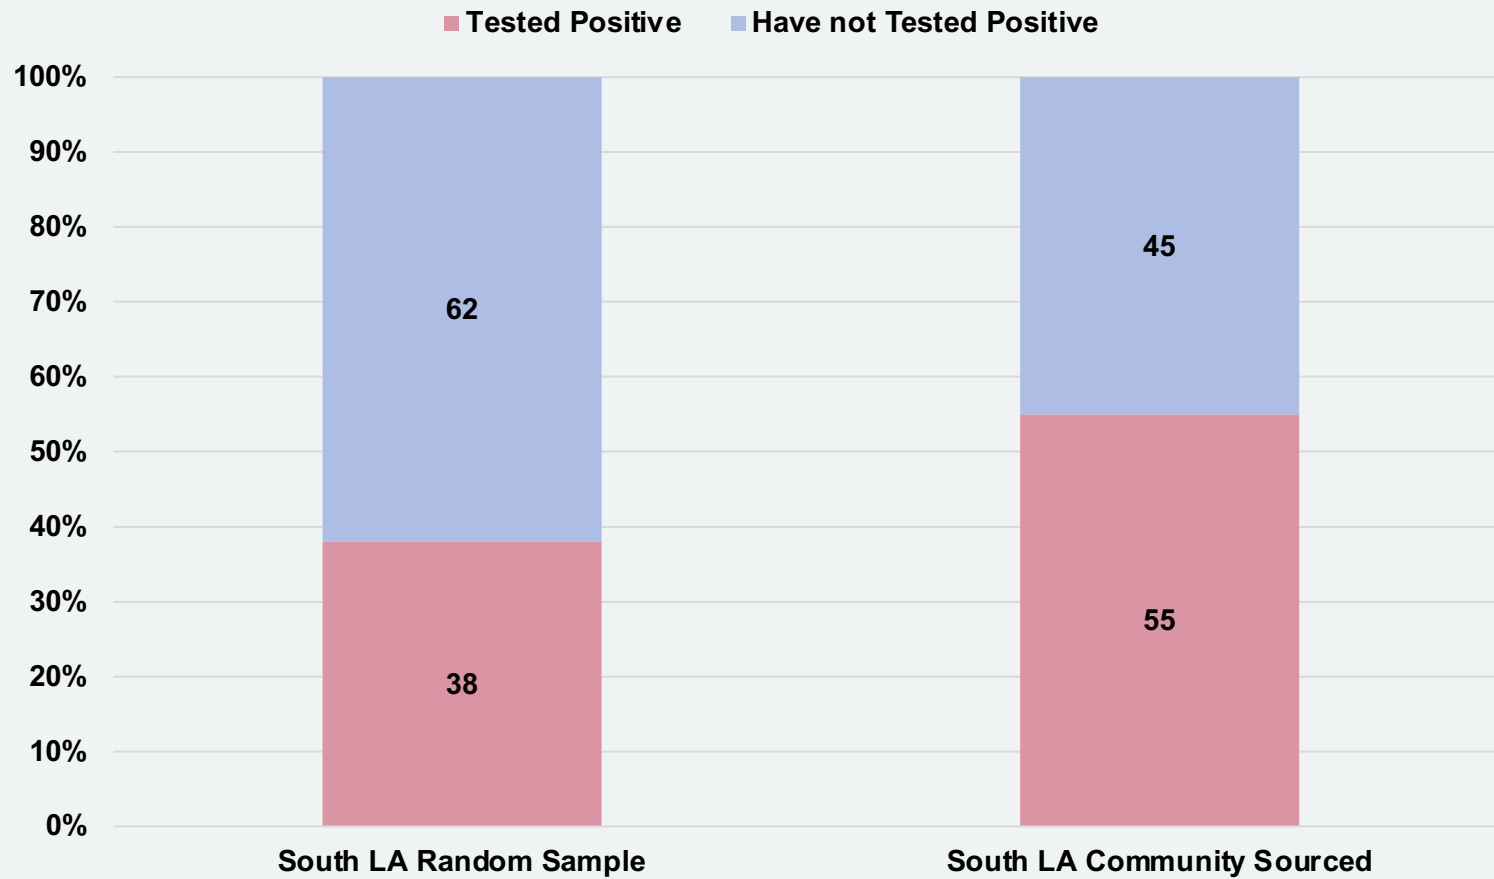

■ Yes, vaccinated and fully boosted ■ Yes, vaccinated, but not yet boosted ■ No, I have never received a Covid-19 vaccine

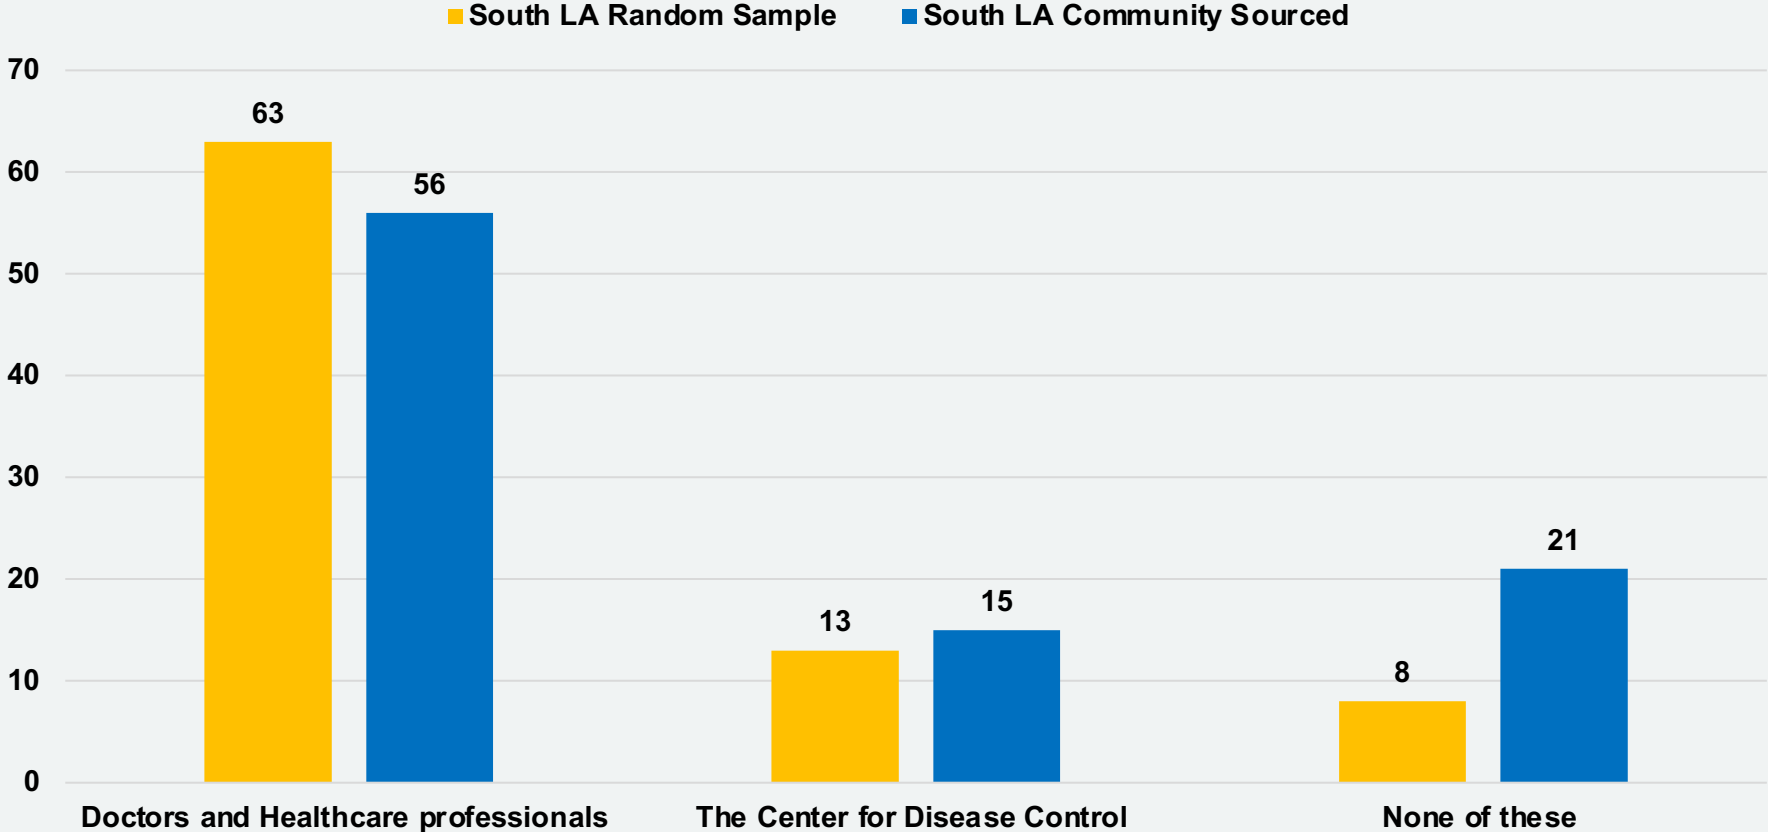

Majority reports regularly wearing their mask

About 4 in 10 reported testing positive for COVID

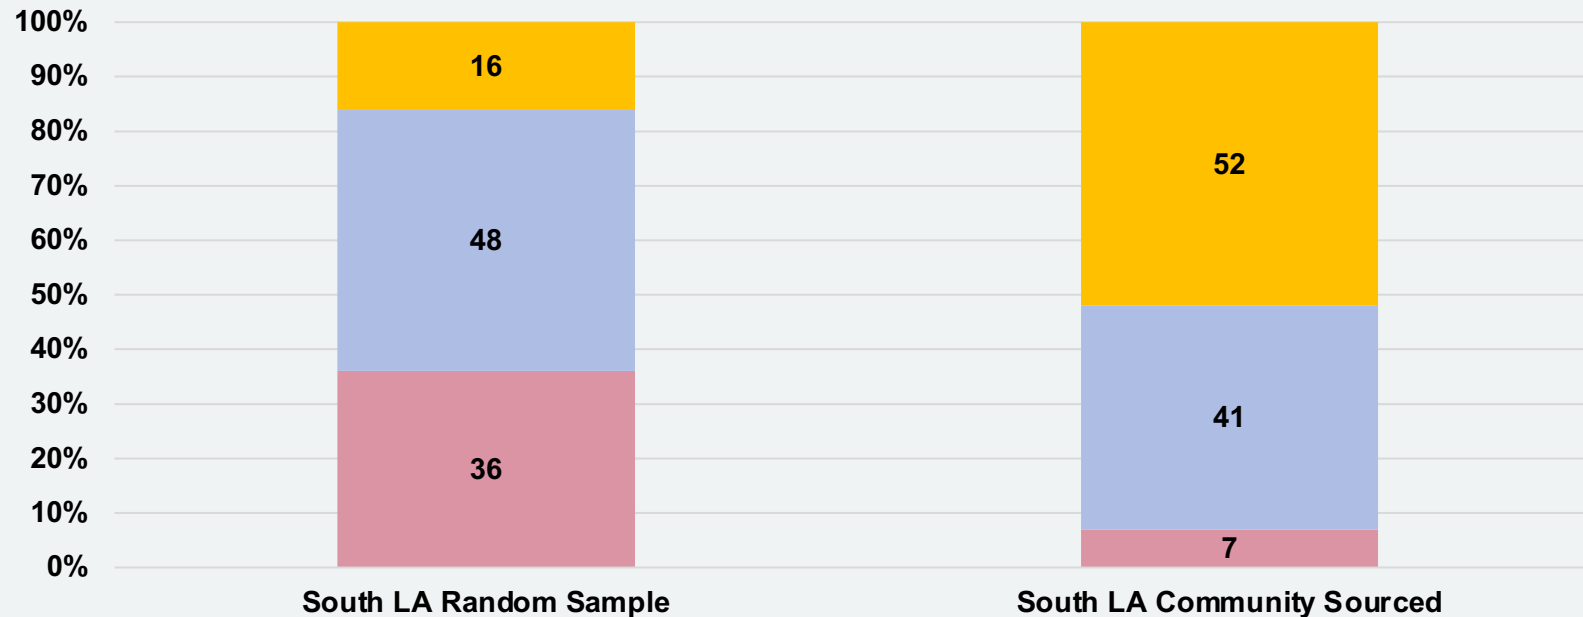

Doctors and healthcare professionals are the most trusted messengers for COVID guidance and recommendations

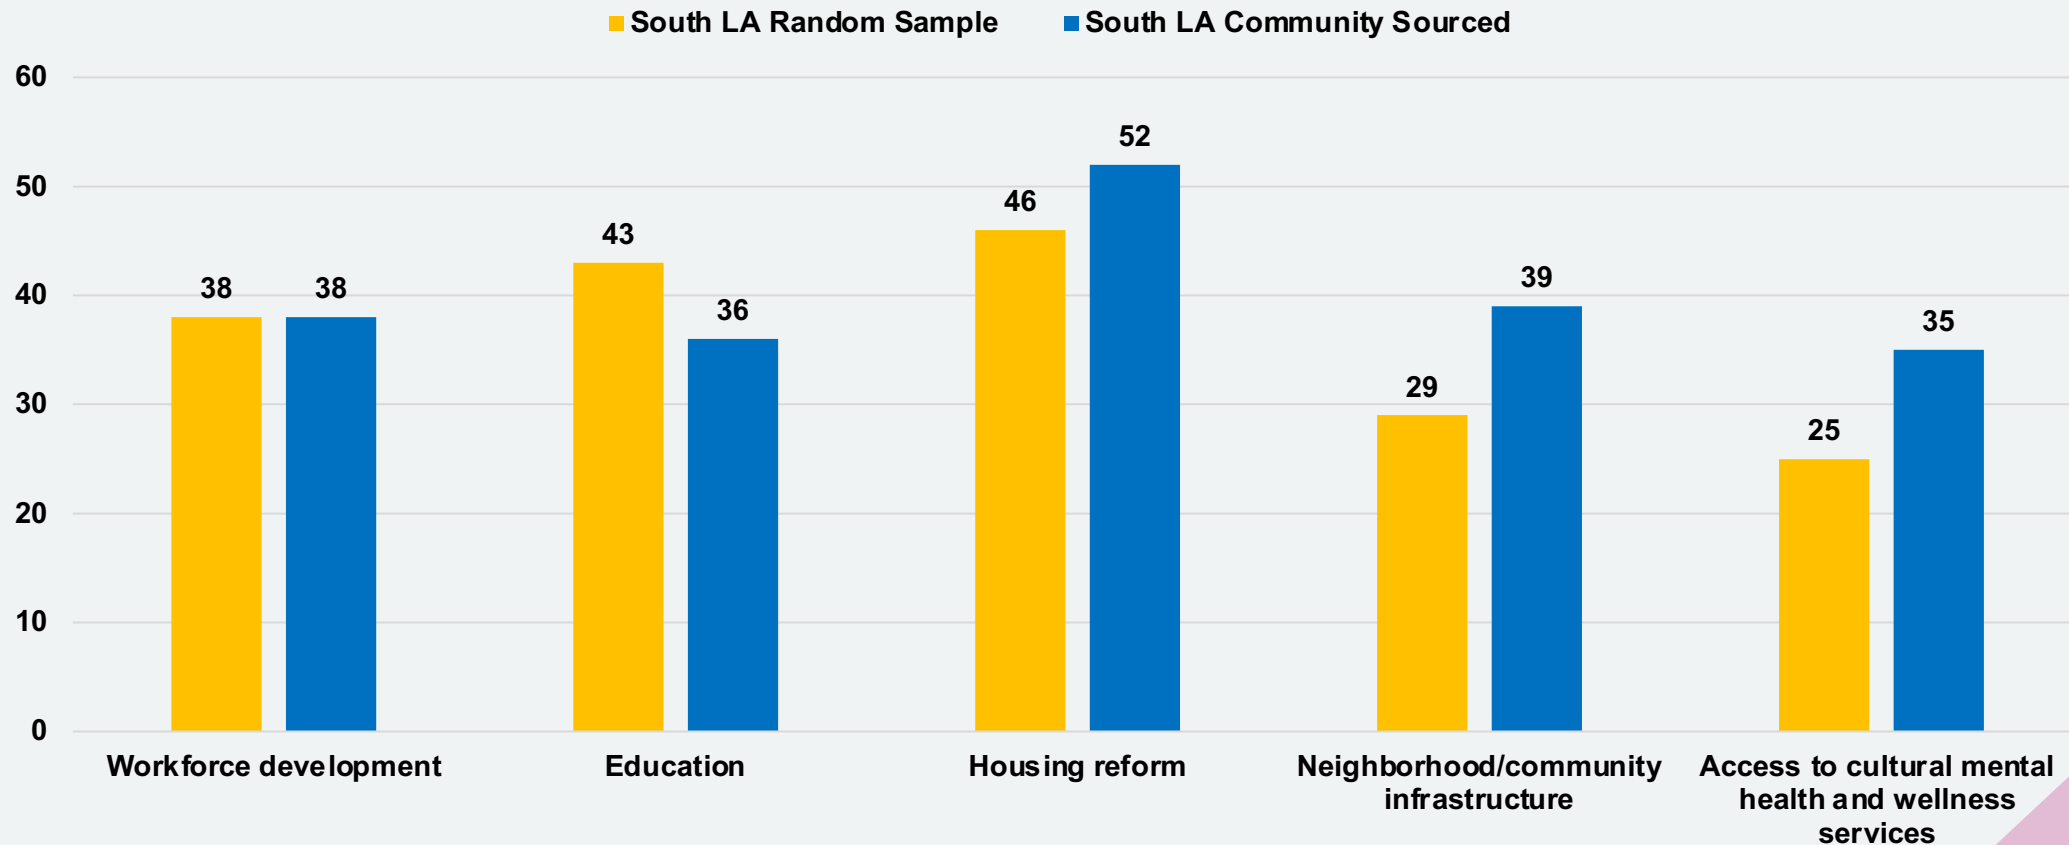

About half believe the worst of the pandemic is over but there is a need to address the issues created

- South LA continues to be impacted by the pandemic and the other issues it has created
- The worst of the Covid-19 pandemic is over, we have adjusted to the new normal and it's time we start addressing the issues created by the pandemic
- The Covid-19 pandemic is over and its time we move on

South LA respondents highlight housing reform, education, and workforce development as crucial priorities
